

AHMED FARGHALY

**M.B.B.CH., MSc., M.D, MRCS
(England)**

Consultant Vascular and Endovascular Surgeon

Associate Professor in Vascular Surgery

Kasr Al-Eini Faculty of Medicine

Cairo University

May 2015

Personal Data:

Address: Villa no 4, 2nd Neighbourhood, West of Somid, 6th October, Giza.

Telephone: +201123431999 / +201207766747

E-mail: farghaly72@gmail.com

Nationality: Egyptian

Marital Status: Married with two children

Language: English: Fluent spoken and written
Arabic: Native Language

Specialty: General Surgery

Subspecialty: Vascular Surgery

Registrations and Memberships:

Full Registration with license to practice with the **GMC United Kingdom**.

Full Registration with the **Egyptian Medical Syndicate (Consultant Registry)**.

Member in the **Society of Vascular Surgeons in Egypt**.

Member of the **Royal College of surgeons of England**.

Previous Registration in Saudi Medical Council

Qualifications:

MBBCh	(Cairo University, November 1996).
MSc in General Surgery	(Cairo University, November 2000).
MD in General Surgery	(Cairo University, May 2005).
Intercollegiate membership MRCS	(RCS England, September 2005).

Present Appointments:

Associate Professor of General and Vascular Surgery, Kasr Al Eini Medical School, Cairo University.

Consultant Vascular Surgeon, Cairo University Hospitals.

Consultant Vascular Surgeon, New Cairo University Hospital (Part time)

Cosultant Vascular Surgeon, Nasser Institue. (Part Time)

Consultant Vascular Surgeon Zayed Specialized Hospital (Part Time)

Consultant Vascular Surgeon, Police Hospital (Part Time)

Consultant Vascular Surgeon, Mustafa Mahmoud Specialized Hospital (Part Time)

Visiting Consultant Vascular Surgeon in the following Hospitals:

Al Safa Hospital

Demeshk specialized Hospital

Alkateb Hospital

Dar Alteb Hospital

Previous Appointments:

Senior Clinical Fellow in Vascular Surgery, Worcestershire Royal Hospital, Worcestershire Acute Hospitals, NHS trust, UK.

October 2011 – June 2012.

Supervisors: Prof. Richard Downing

Mr. Eric Grocott.

Senior Clinical Fellow in Renal Transplant and Venous access, The Royal London Hospital, NHS Trust, UK

Jan 2011- December 2011

Supervisors: Mr. Roberto Cacciola

Mr Carmello Puliatti

Senior Clinical Fellow in Vascular Surgery, Royal Free Hampstead NHS Trust, London, UK.

Feb 2010 till Jan 2011

Supervisors: Prof. George Hamilton

Mr. Daryll Baker

Senior Clinical Fellow in Vascular and General Surgery in WestHertfordshire NHS trust, Hertfordshire, UK.

Jan 2009 till February 2010

Supervisors: Mr. Reda Awad

Mr. Mustafa Halawa

Senior Lecturer of General and Vascular Surgery, Cairo University.

Associate Consultant Vascular Surgeon, Cairo University Hospitals.

April 2007 till Jan 2009

Supervisors: Prof. Dr. M. Sharkawy

Prof Dr. M. Hosni Eldessoki

Acting Consultant Vascular and General Surgeon, Saudi German Hospital, Riyadh , KSA

Oct 2005 till March 2007

Senior Lecturer of General and Vascular Surgery, Cairo University.

Associate Consultant Vascular Surgeon, Cairo University Hospitals.

June 2005 till Oct 2005

Supervisors: Prof. Dr. M. Sharkawy

Prof Dr. M. Hosni Eldessoki

Assistant lecturer General & Vascular Surgery, Cairo University Hospitals

March 2001 till June 2005.

Supervisors: Prof. Dr. M. Sharkawy

Prof Dr. M. Hosni Eldessoki

Resident of General Surgery , Cairo University Hospitals

March 1998 till March 2001.

Supervisors: Prof. Dr. M. Batanony

Prof. Dr. M. Hosni Eldessoki

Prof. Dr. Ayman El-Samadony

House Officer in Cairo University Hospitals

March 1997 till February 1998.

My Surgical Areas of Interest:

Aortic surgery

EVAR and TEVAR (more than 150 cases)

Open aneurysm repair

Aorto Bifemoral

Aorto Iliac intervention

Carotid Surgery

CEA (more than 70 cases)

CAS Carotid Artery Stenting

Renal Transplant and Venous Access

Renal Transplant (more than 60 cases)

Complex venous Access

Perm, Porta and temp Catheteres

Peripheral Angioplasty

Iliac, Femoro pop and Tibial angioplasty

Clinical Experience:

17 years of experience in Surgical field.

I have been working in biggest and most busy teaching hospitals and tertiary referral centres in Egypt , KSA and the United Kingdom all through my career, that give me valuable experience in dealing all variety of complex and difficult cases.

Main area of experience, Aortic Aneurysm, Renal transplant, Vascular access, Carotid Disease, Diabetic foot and peripheral vascular disease and Vascular Truma.

Since the beginning of my consultant post I ve been busily involved in developing the EVAR/ TEVAR training programme in Egypt. We managed to do over 25 cases of EVAR/ TEVAR in Cairo University Hospitals only in the last couple of years.

Has been involved in a busy EVAR training programme in the UK for 2 years and Renal transplant and vascular access programme for 1 year.

My log book contains more than 4000 procedures containing most of the minor, moderate and major procedures in general and vascular surgeries.

Note: **Logbook** is available upon request.

Computing Experience:

Fully trained and expert user of various professional Medical Soft wares as PACS and OSIREX

Expert User of Windows and Mac

Expert User of Office (Word, PP and Excel)

Teaching Experience:

As an Assistant Professor in Cairo University – the biggest teaching hospital in the Middle East and before

As a Senior fellow in two of the biggest teaching hospitals in London, I have gained valuable experience in clinical teaching and surgical demonstration.

Undergraduates:

I have always been involved in undergraduate teaching in all my training posts since 1998. This entailed conducting ward rounds with medical students, clinical demonstrations and subject reviews for final year medical students.

During my post in the Royal free hospital I was the teaching co-ordinator for the undergraduate medical students of year 3 and year 5 of University college of London (UCL).

Postgraduates:

I have been teaching to house officers (FY1) in all my training posts. I have also conducted regular journal clubs for the department of vascular surgery.

Successfully completed a 3-week course for "Preparation of the University Tutor", organised by Cairo university involving teaching and examination skills, I ve also completed a course for house officers assessor training in the Royal Free Hospital in UK.

Participated in teaching in the basic surgical skills course for post graduate at the NHS in UK.

Attended Courses:

Course	Provider	duration	Year obtained
Basic Surgical skill	Cairo University, Egypt	2 days	1998
Basic Laparoscopic Surgical skills	Cairo University, Egypt	2 days	2000
Basic Life support	Cairo University, Egypt	1 day	2001
Endovascular Workshop	Cairo University, Egypt	1 day	2002
Endovascular Workshop		2 days	2004
Preparation of University Tutor	Cairo University,	3 weeks	2005

	Egypt		
Endovenous Laser workshop	King Saud University, Riyadh, KSA	2 days	2006
FY assessor training course	Royal Free , NHS, UK	1 day	2010
LINC course @ CX	Charing Cross, UK	1 day	2010
Ultrasound guided CVP insertion	Royal Free , NHS, UK	1 day	2010
Fenestrated Master Calss	Lille University, France	1 day	2010
Scientific publishing	Cairo University, Egypt	2 days	2010
Communication skills	Cairo University, Egypt	2 days	2010
Fellowship in Endovascular Intervention	Keil University Germany	10 days	2013
Brunckwall Fellowship in Aortic intervention	Cologne University, Germany	12 days	2014
Thoracic (TEVAR) Workshop	Milano, Italy	2 days	2014

Conferences and Seminars:

First conjoint annual meeting of vascular Surgery unit, Faculty of Medicine, Cairo University, January 2002.

Weekly meeting of Vascular surgery unit held at the New Kasr El-Aini French teaching Hospital. Cairo, Egypt.

The 6th Congress of the Middle East & North Africa chapter of the international society for cardiovascular surgery (ISCVS-MENA)

The vascular society of Egypt, the 1st annual congress, Aswan, Egypt. April 2005

2nd ER & Trauma Symposium of the Saudi German Hospital, February, 2006.

The international Vascular conference of Saudi German hospital Group, Jeddah, Saudi Arabia October, 2006.

The annual meeting of the Vascular Society of Great Britain & Ireland, Edinburgh, November 2006.

7th International Symposium on Vascular Surgery Update, College of medicine King Saud University, Riyadh, Saudi Arabia, January 2008.

Charing Cross 32nd international Vascular Symposium, Charing Cross , London , UK, April 2010.

North London and Hertfordshire Vascular meeting, Barnet and Chase Farm NHS trust, London, UK, September 2010.

The 2nd Annual Vascular Access Society of Britain and Ireland meeting, Brighton, UK September 2011

VSE Annual Conference, Hurgada, Egypt 2013

LINC 2014, Leipzig, Germany, 2014.

LINC 2015, Leipzig, Germany, 2015

SGH Vascular Symposium, Jeddah, KSA, 2015

Researches and Academic Achievements:

Hepatocellular Carcinoma, Prognosis and Management, Msc Thesis, 1999.

In this research, we presented a review of Literature of the Hepatocellular Carcinoma discussing in details the epidemiological, aetiological features of this disease in addition to the clinical manifestations , recent methods of management and prognosis , during the late 90s.

We Also presented a statistical study regarding the numbers of patients that was admitted and managed in Kasr Eleini Hospital and the National Cancer Institute over the previous 5 years (1993 – 1998) and analysis of the method of management and outcome.

This Study was presented as partial fulfilment of the Msc degree in General Surgery and was approved by the Faculty Board on September 1999.

Venous leg Ulcer, Evaluation and management, MD Thesis, 2003.

Venous Leg ulcer is one of type of ulcers that is characterized by high rates of recurrence with no uniform accepted surgical treatment, Difficulty in management such condition is due to; anatomical features of the affected are, multiple pathophysiological factors and the chronic changes in the peri-ulcerative tissues.

In that research, we presented a clinical prospective study over 60 randomly selected patients who all suffered chronic venous leg ulcers. Patients were subjected to different protocols of treatment, including compression therapy, Endoscopic subfascial ligation and tissue coverage for chronic ulcers. They were followed up over 2 years and the results were carefully recorded.

In the mentioned study we came out with the following conclusions:

Compression therapy is the corner stone therapy in treatment of venous leg ulcer.

Compression therapy combined with perforators interruption would decrease the rate of recurrence significantly.

Endoscopic Subfascial ligation carries much better results than the open surgical ligation.

This research was submitted as partial fulfilment of the MD degree in Surgery, it was approved by the Faculty Board in September 2003.

Surgical Audit:

Since I started my career in the UK I have been very Keen to participate in various Audit projects in the departments I worked for. This out of my believe of the importance of the audit in the improvement and continuous development of our current medical practice

Examples of the Audit project I participated in:

Data Analysis of post EVAR duplex scan, Royal Free, 2010.

Audit Target (pre-discharge scan for all the post EVAR patients)

Retrospective study discussing the percentage of patients of who had scan pre-discharge. in addition to the numbers of early detected endoleak.

My Role in this project was data collection and re-auditing

Annual Audit of the Renal Transplant Unit, Royal London Hospital, 2011

Data analysis of the numbers of patients , peri and postoperative complications, length of stay and transplant outcome.

Also Participated in the presentation of this Audit.
