### **Personal Statement:**

I have chosen the radio diagnostics as my specialty in medical sciences, with my passion driven toward the ultrasonography and vascular diagnostics and interventions, Spending about 6 years over ultrasonography and DUPLEX studies, I developed experience with Duplex based diagnosis of various vascular diseases, I was a member of team specialized in vascular interventions in our institute with interventions of venous system (e.g. CHIVA and ASVAL) as core of my experience.

I am looking for further building up of my experience in the field of endovascular and minimally invasive venous interventions (especially in varicose veins resistant and handicapping complications e.g. venous ulcers and vulvoperineal (pelvic) varicosities in females) with establishing an international center in the Middle East for most updated curative and minimally invasive procedures based management and researches at the venous diseases as my own personal dream.
