

Name: Ahmed Mohsen Hafez Al Mahrouky
Birthdate : 20th October 1978
Citizenship : Egypt born and living
e-mail : drmahrouky@gmail.com

EDUCATION AND TRAINING

- October 2001 : Bachelor of medicine and surgery from faculty of medicine cairo university
- 2002-2003 : house officer in kasr al aini hospital faculty of medicine cairo university
- 2003-2006 : residency in general and vascular surgery
- 2006-2011 : assistant lecturer of general and vascular surgery
- April 2007 : member of royal college of surgeons of England
- passed M.D exam in surgery in 2009
- july 2011 : lecturer of general and vascular surgery .
- member of the Egyptian society of vascular and endovascular surgeons in January 2012
- 2012 : fellow of keil university in germany in the endovascular management of arterial disease

RESEARCH

- Complex limb injuries (M .Sc thesis)
- Infrapopliteal angioplasty vs Infrapopliteal bypasses (M.D thesis)

Surgical skills

Vascular surgeries that I can do confidently without supervision

1. vascular trauma

- All forms of limb trauma
- neck Vascular trauma
- chest Vascular trauma

abdominal vascular injuries(Aortic , Caval Injuries)

2. Management of acute ischemia

(Embolectomies and thrombectomies)

3. management of chronic ischemia
 - bypass surgery
 - a) Aortobifemoral
 - b) Iliofemoral
 - c) femorofemoral
 - d) Femoropopliteal
 - e) femorodistal bypass
 - ENDOVASCULAR interventions
 - a. Iliac angioplasty
 - b. SFA angioplasty
 - c. Below the knee angioplasty
4. hemodialysis vascular access
 - natural AVF
 - synthetic grafts
 - insertion of jugular and subclavian cuffed tunneled catheters(hickman catheters)
5. aortic aneurysms
 - i. open AAA
 - ii. open TAAA
 - iii. evaar and tevaar ànever done
6. carotid artery:
 - i. CEA
 - ii. CAS
7. venous :
 - i. varicose veins
 - ii. injection sclerotherapy
 - iii. resection of varicose veins without scars

General surgery operation that I am trained to perform alone

First operator unsupervised:

- a. Hernias
- b. Thyroidectomies
- c. Mastectomies
- d. Varicose vein surgery
- e. Splenectomy
- f. Cholecystectomy(open and laparoscopic)
- g. CBD exploration , choledochodudenostomy
- h. Resection anstomosis (small bowel)
- i. Exploration of acute abdomen
- j. Colectomies
- k. Exploration of blunt and penetrating abdominal trauma (1 year experience as an assistant lecturer in kasr alaini and 1 year as a lecturer I kasr al aini hospitals)

Teaching skills:

- Teaching surgery theoretical and clinical for since 2006 for medical students
- Training residents in general , vascular and laparoscopic surgery
