1995 till 1998: Resident in Pediatric Department, Cairo University.

1994 till 1995: Rotating internship at Cairo University Hospitals.

(Cairo University Hospital – Kasr El-Eini - is the largest tertiary level educational university hospital in Egypt with 3000 beds capacity divided between different sections with availability of all types of diagnostic and intervention tools.

The pediatric section is located at a separate building with 400 beds for admission divided between general pediatric sections and specialized units ; Nephrology, Hematology, Gastroenterology and Pulmonology. With 10 general out patient clinics working for 2 shifts every day and specialized clinics every day in all subspecialties including surgical. OPD receives about 1000 patients every day in different clinics.)

(Curriculum for post graduate studies in Egypt –Master and MD degrees- includes:

- 1- Thesis.
- 2- Written exam; First part in basic sciences and second part in specialty area.
- 3- Practical and oral exams.

Achieving the degree depends totally on passing written and practical exams.)
