

DEPARTMENT KASR AL AINY

PRACTICAL WORKBOOK

FOR

First Year Medical Students

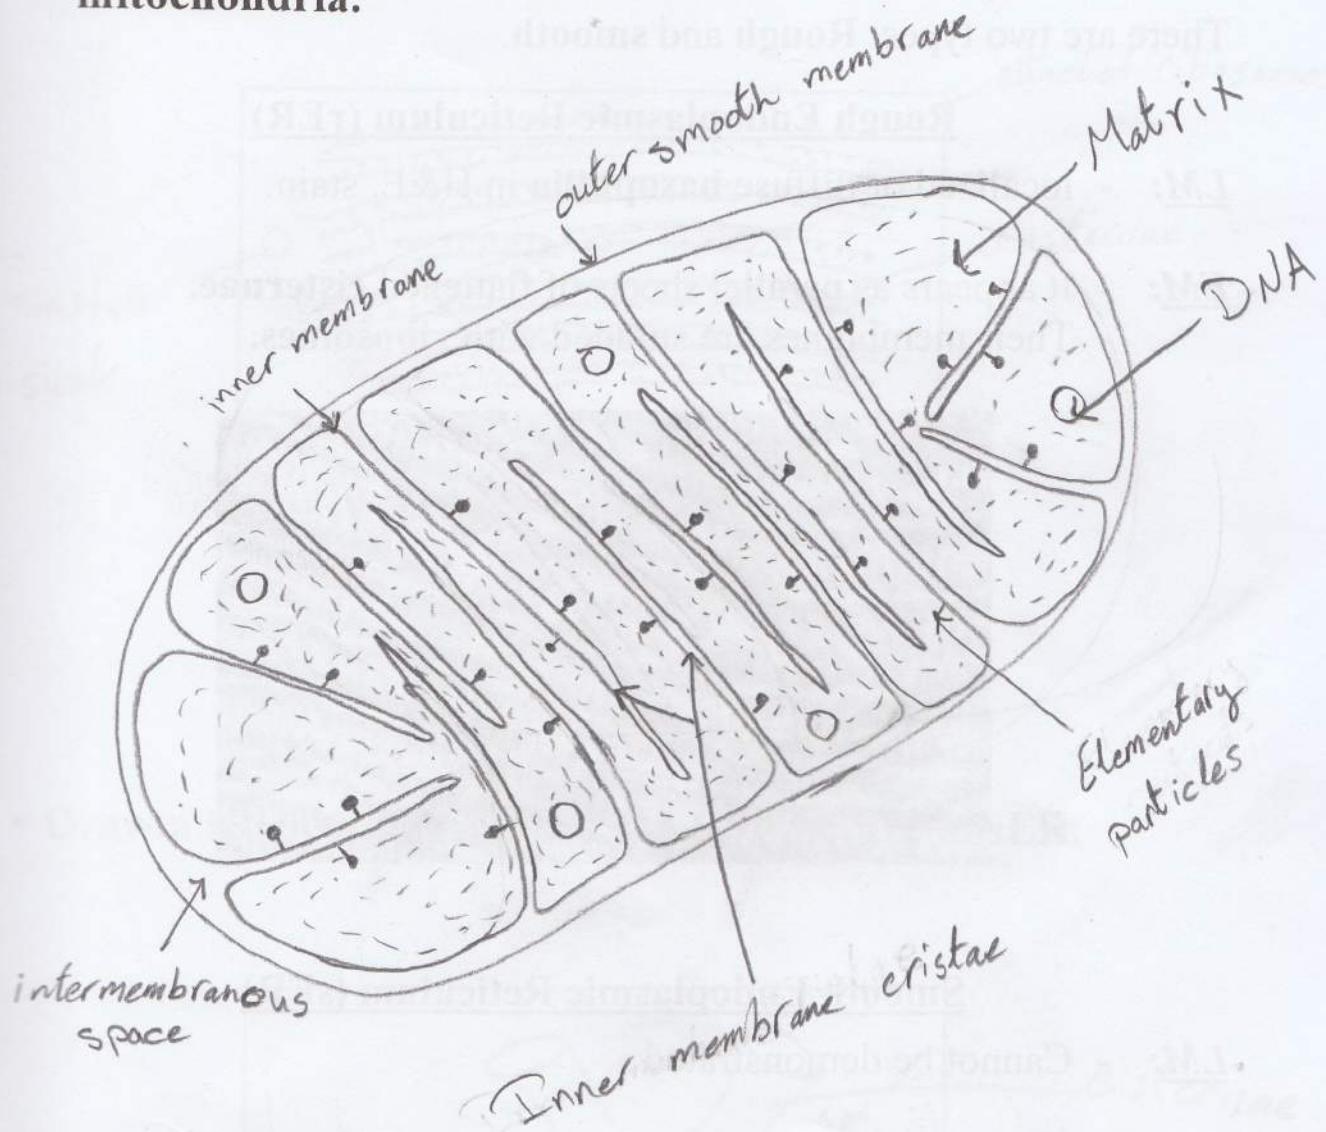

- Draw a labeled diagram for the molecular structure of the cell membrane.

6-11-2014

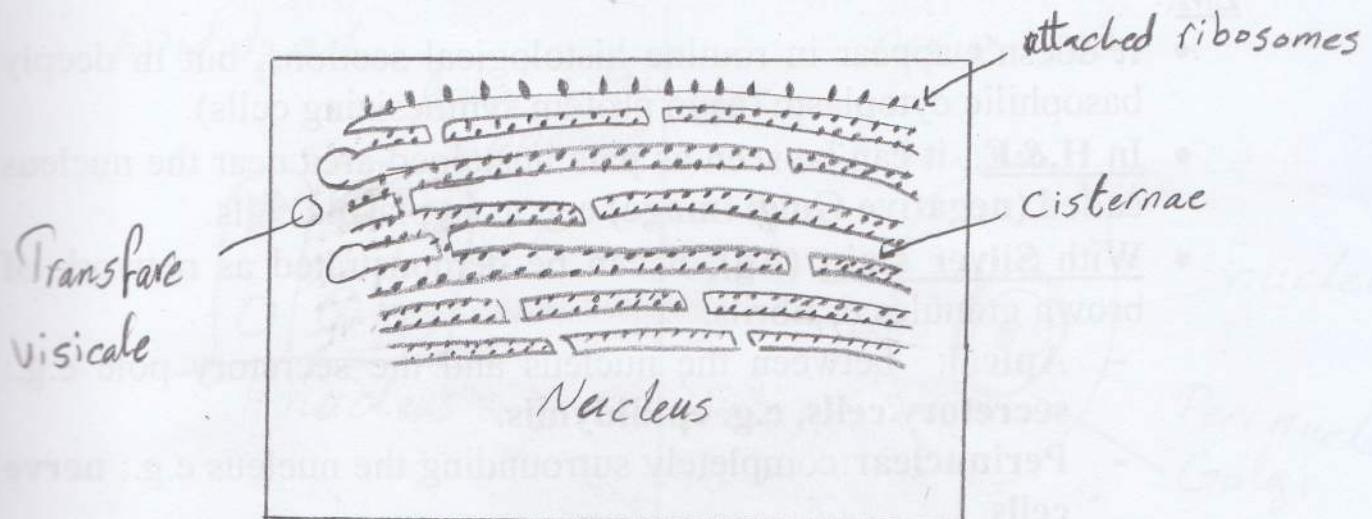

Mai

- Draw a labeled diagram for the EM picture of mitochondria.

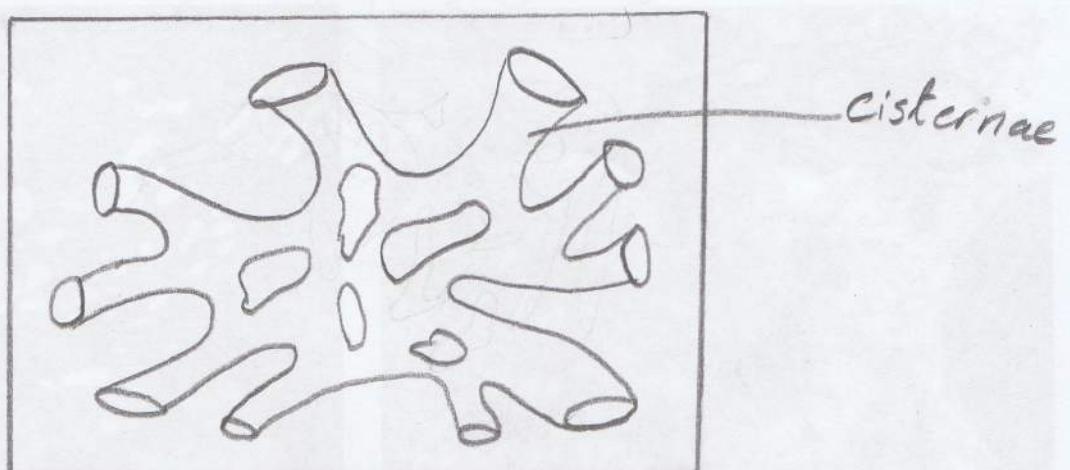

6-11-2014
Mo.

- Draw a labeled diagram for the EM picture of rER.

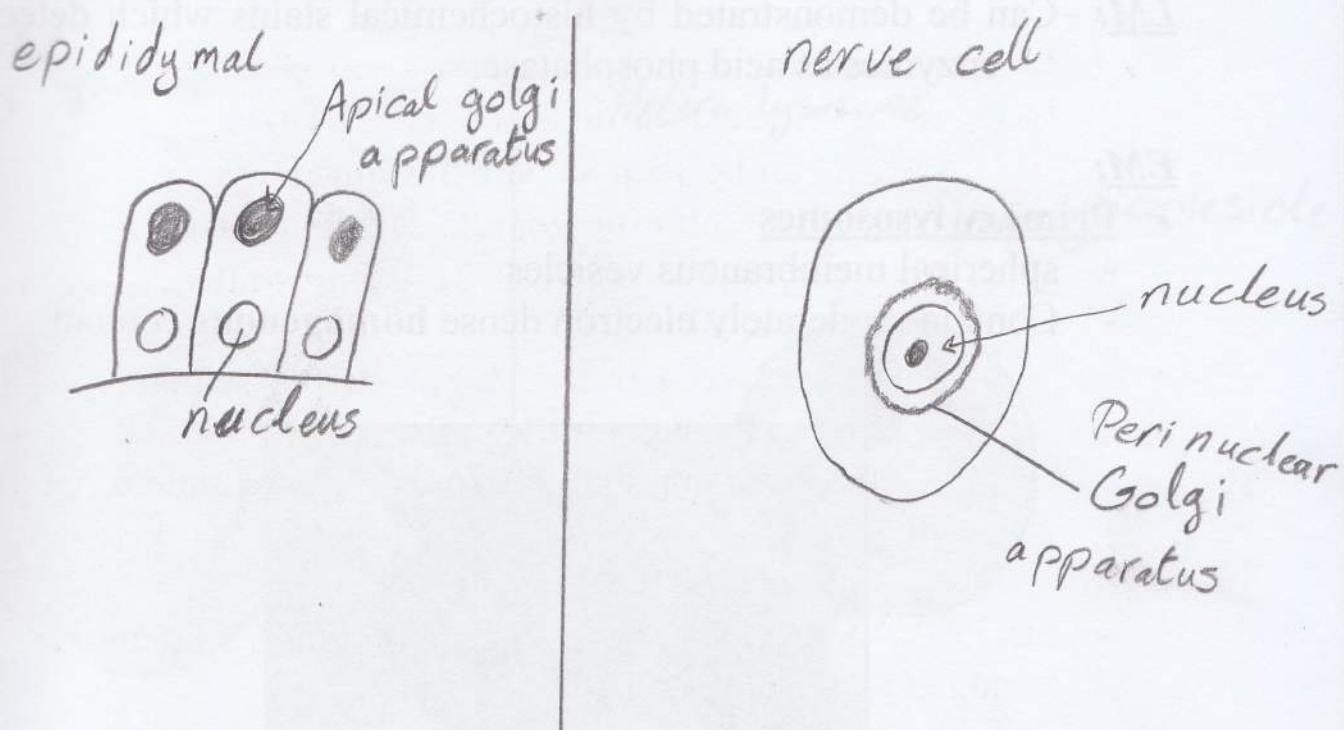

- Draw a labeled diagram for the EM picture of sER.

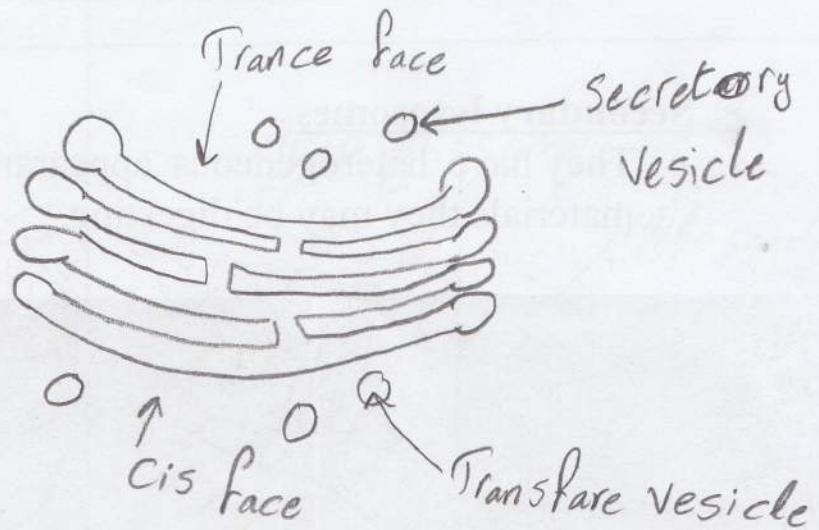

✓ 6-11-20¹⁴
Mo

- Draw a colored diagram for Golgi apparatus in epididymal and nerve cells.

- Draw a labeled diagram for the EM picture of Golgi apparatus.

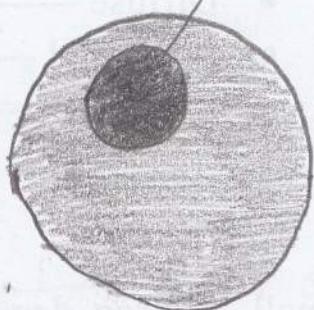

~~6-11-2014~~
me

- Draw a labeled diagram for different types of lysosomes

Primary lysosome

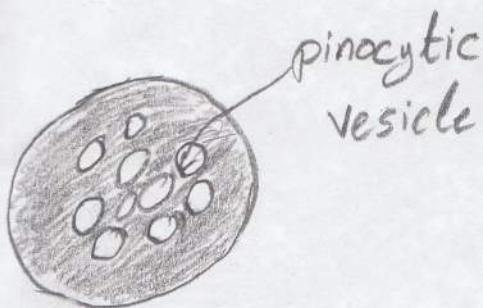

Hetero lysosome

phagocytic vesicle

Multivesicular body

pinocytic vesicle

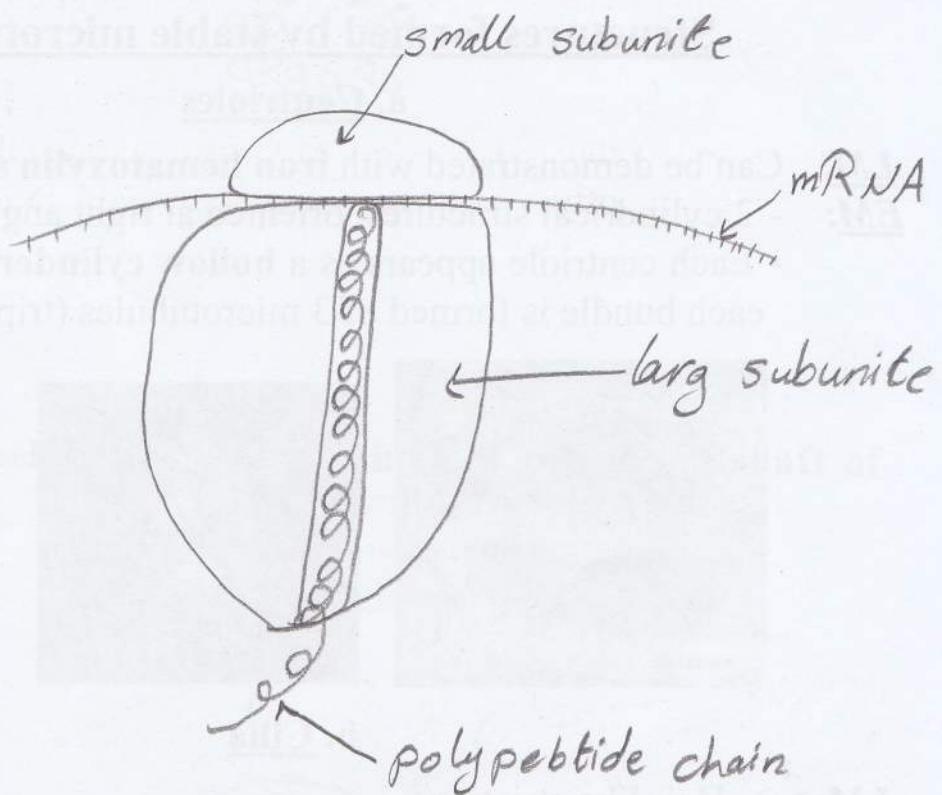

Auto lysosome

Mitochondria

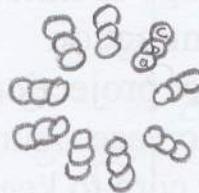

$\beta^- \text{ } 11^- \text{ } 20^{14} \text{ } \mu$

- Draw a labeled diagram for the EM picture of ribosomes.

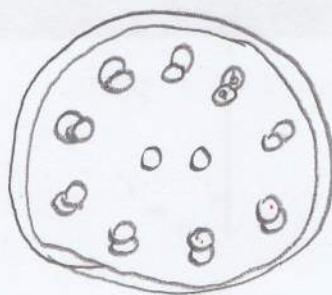

13' 11' 20' 14'
μm

- Draw a labeled diagram for the EM picture of centrioles.

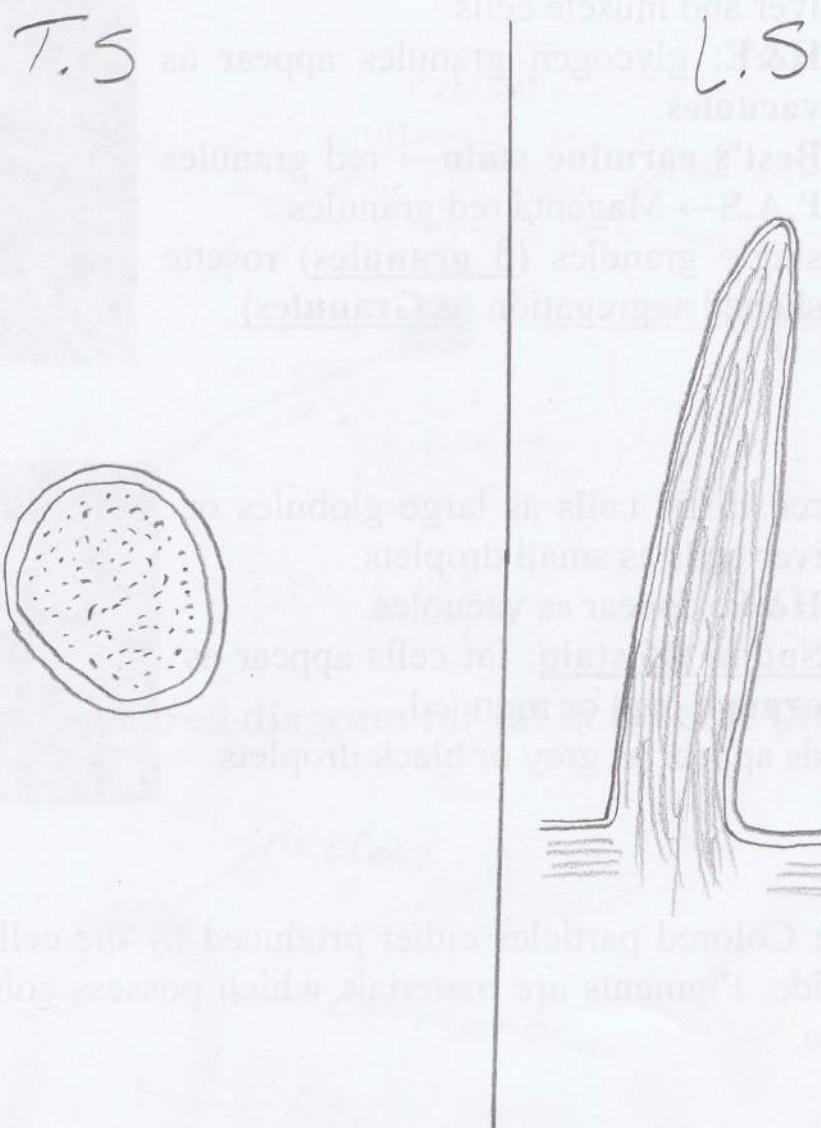

- Draw a labeled diagram for the EM picture of shaft of cilium.

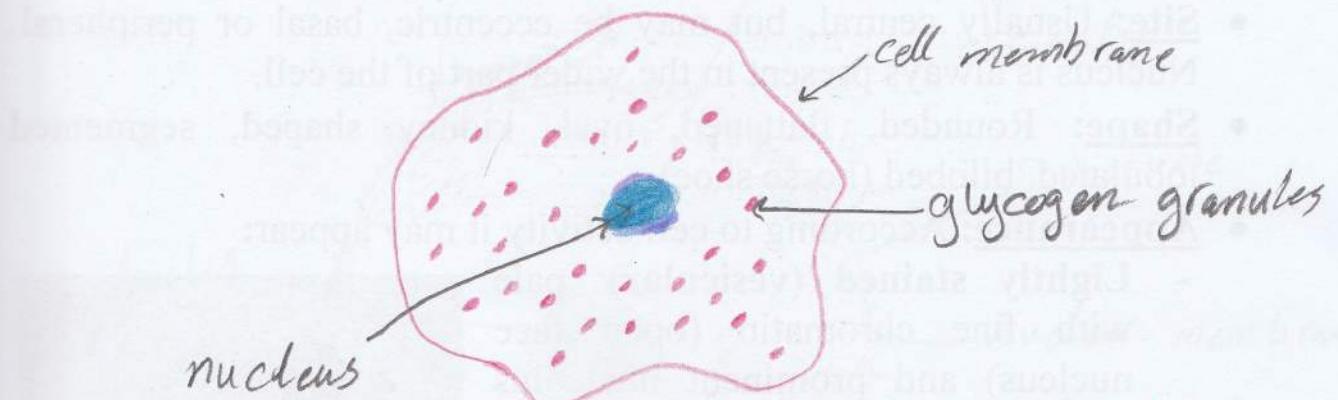

13-11-2014
Mr

- Draw a labeled diagram demonstrating actin filaments in microvilli (T.S & L.S).

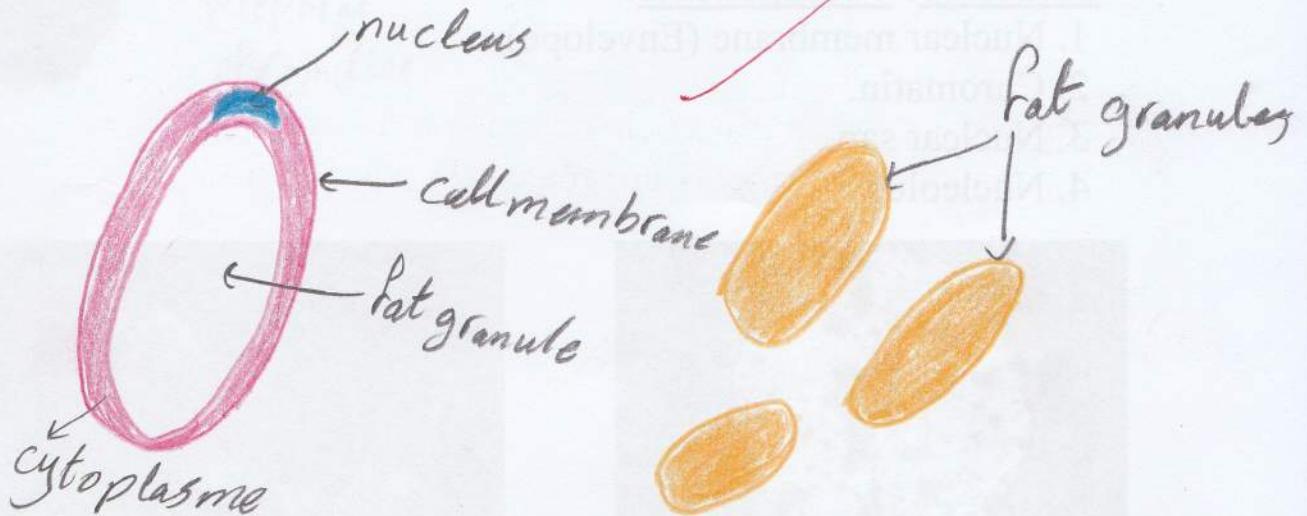

✓ $13^{11} - 14$ μ

- Draw a colored diagram for glycogen in liver cells (Best's Carmine).

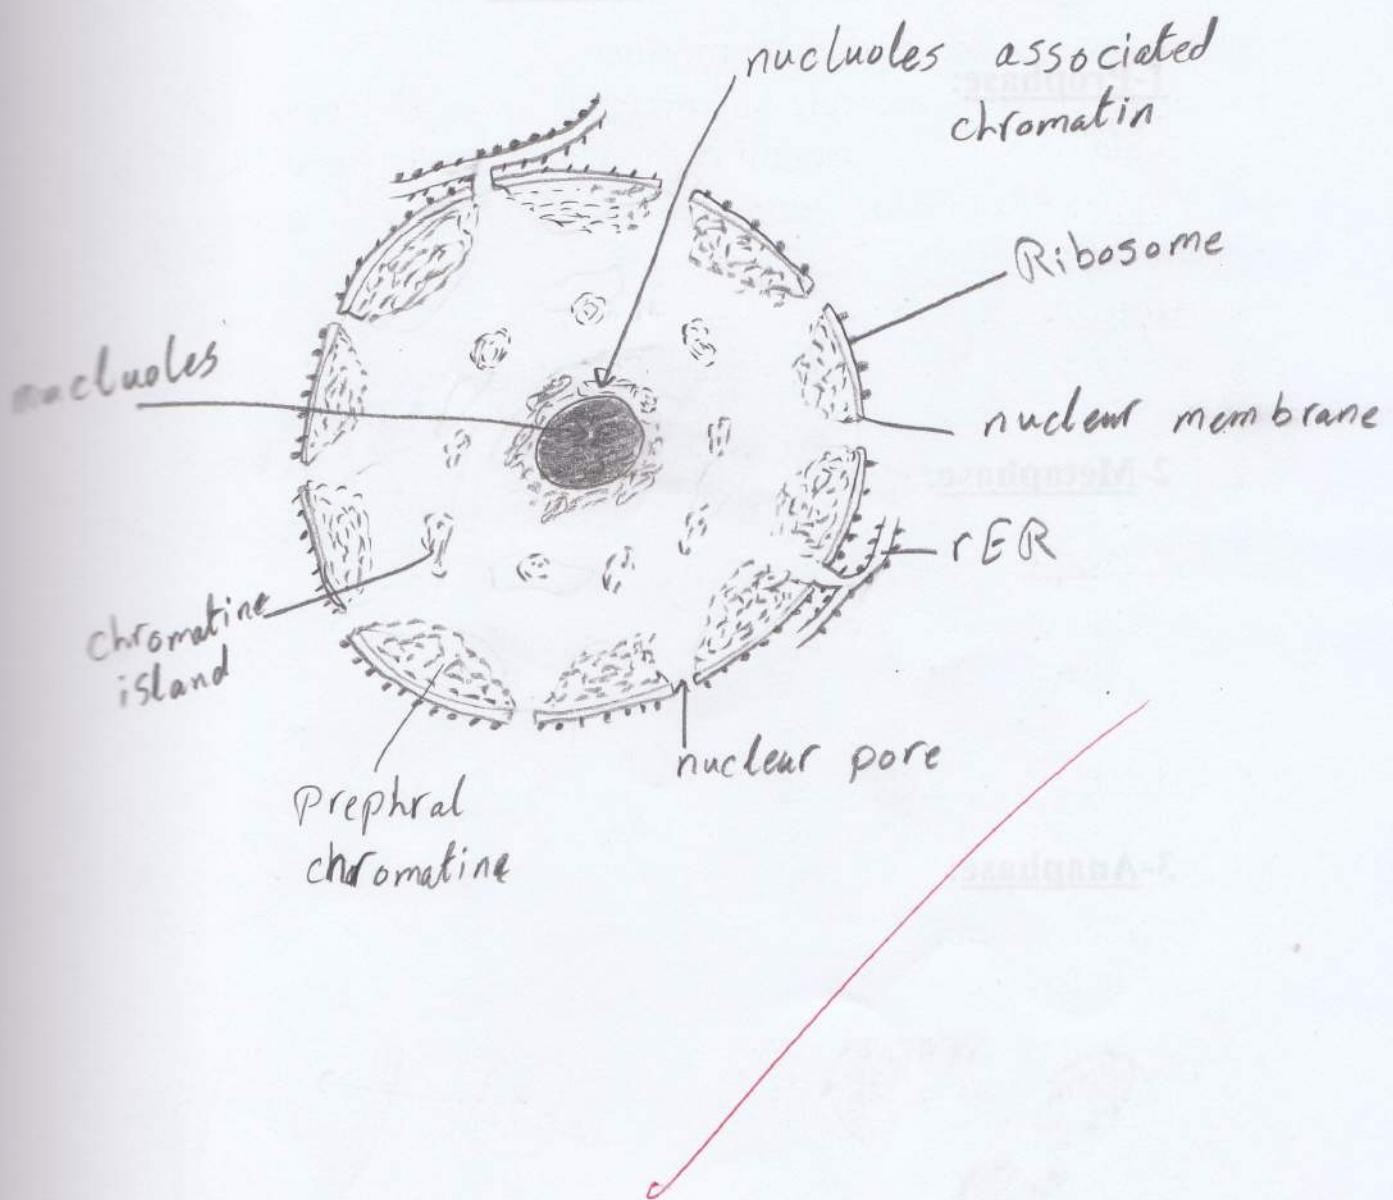

20/11

- Draw a colored diagram for fat in fat cells (Sudan III).

- Draw a labeled diagram for the structure of nucleus.

- Draw a colored diagram for different types of simple epithelium

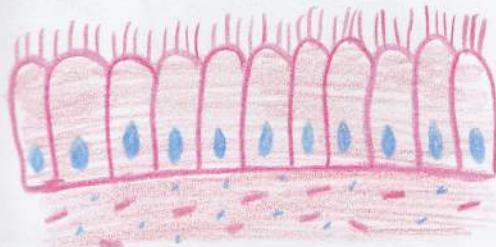

Simple squamous

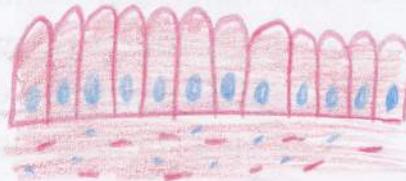

simple cubical

Simple columnar (ciliated)

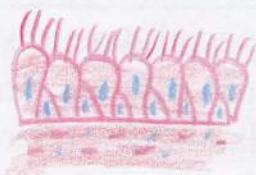

simple columnar (non-ciliated)

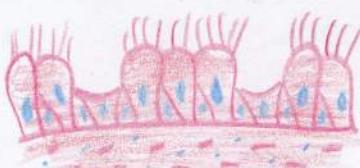

Pseudstratified columnar (non-ciliated)

Pseudstratified columnar (ciliated)

Pseudstratified columnar ciliated with goblet cells

- Draw a colored diagram for different types of stratified epithelium

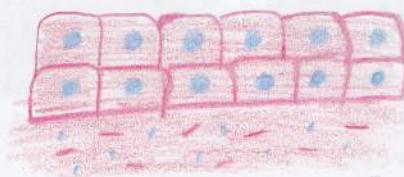

stratified squamous (non-kertinized)

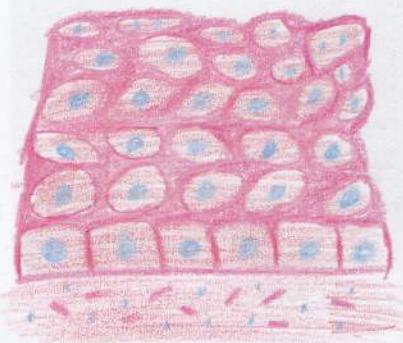

stratified squamous (keratinized)

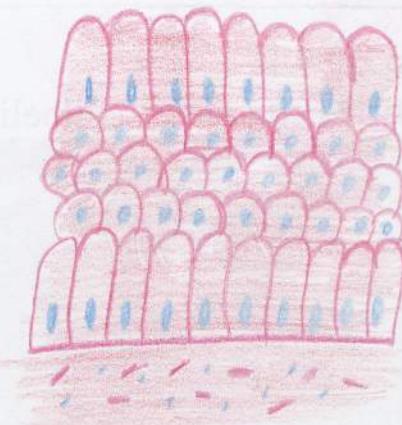

stratified cubical

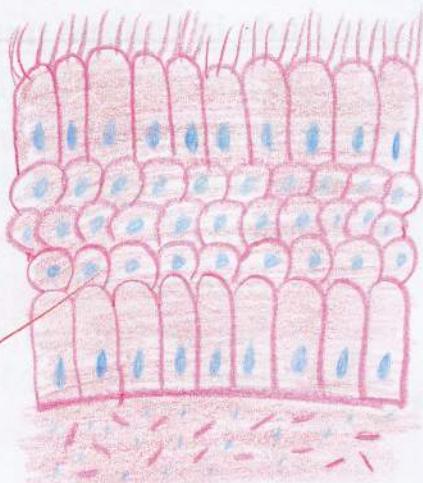

stratified cuboidal (Transitional)

stratified columnar (non-ciliated)

stratified columnar (ciliated)

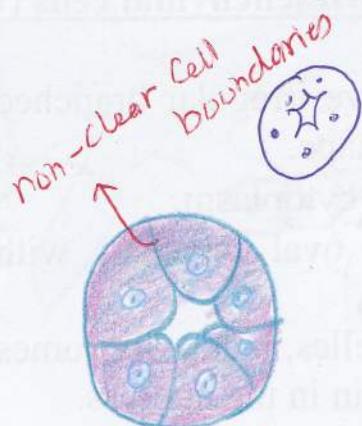

Nohar
4/12

- Draw a colored diagram for different types of acini.

mucous acinus

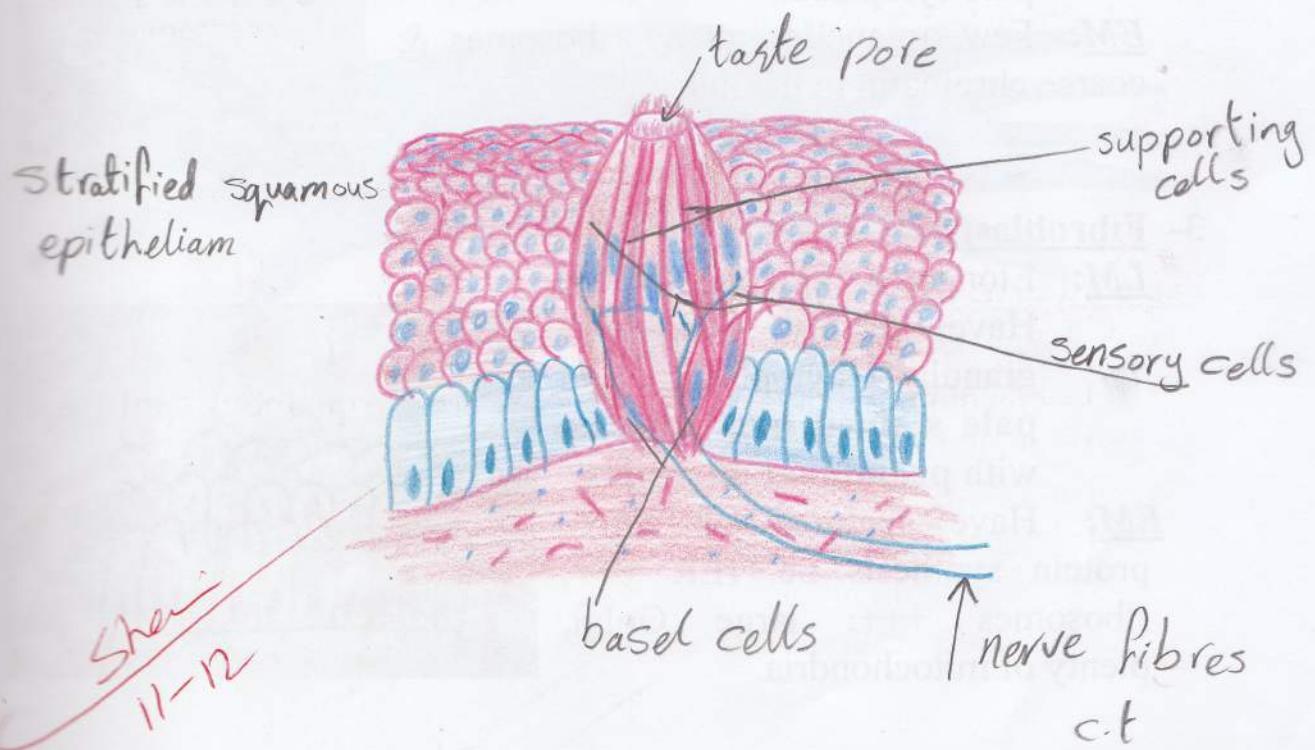

Serous acinus

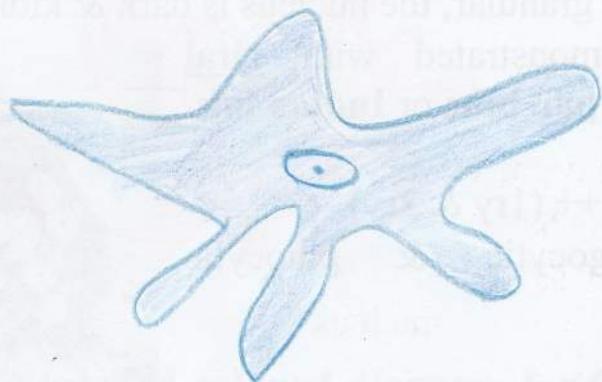

muco-serous acinus

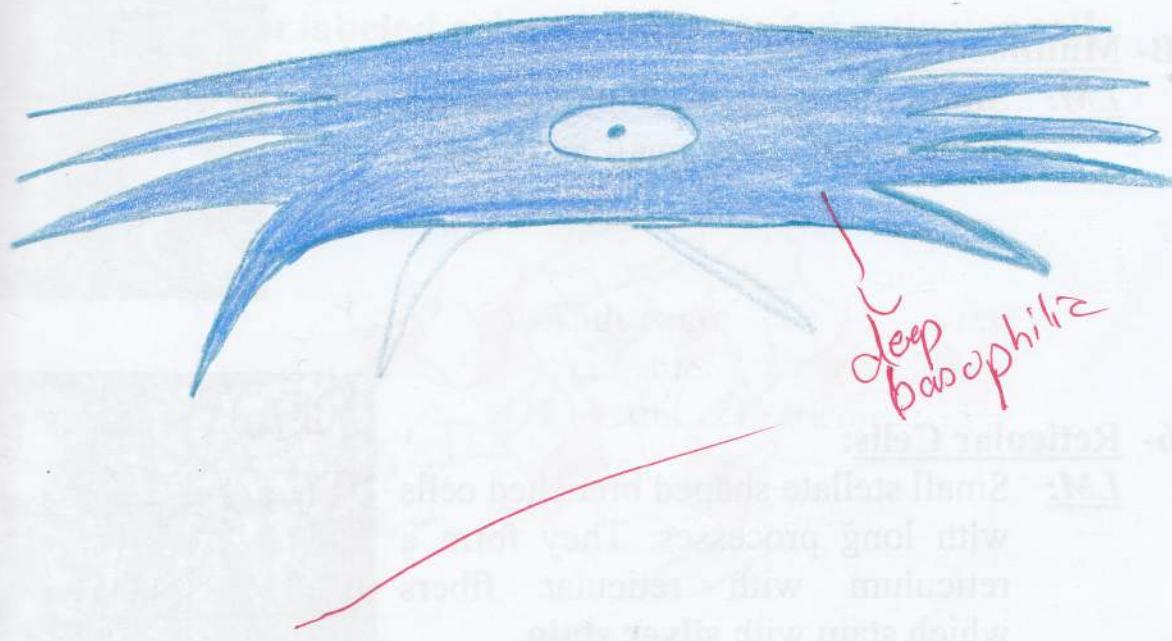

- Draw a labeled colored diagram for taste bud.

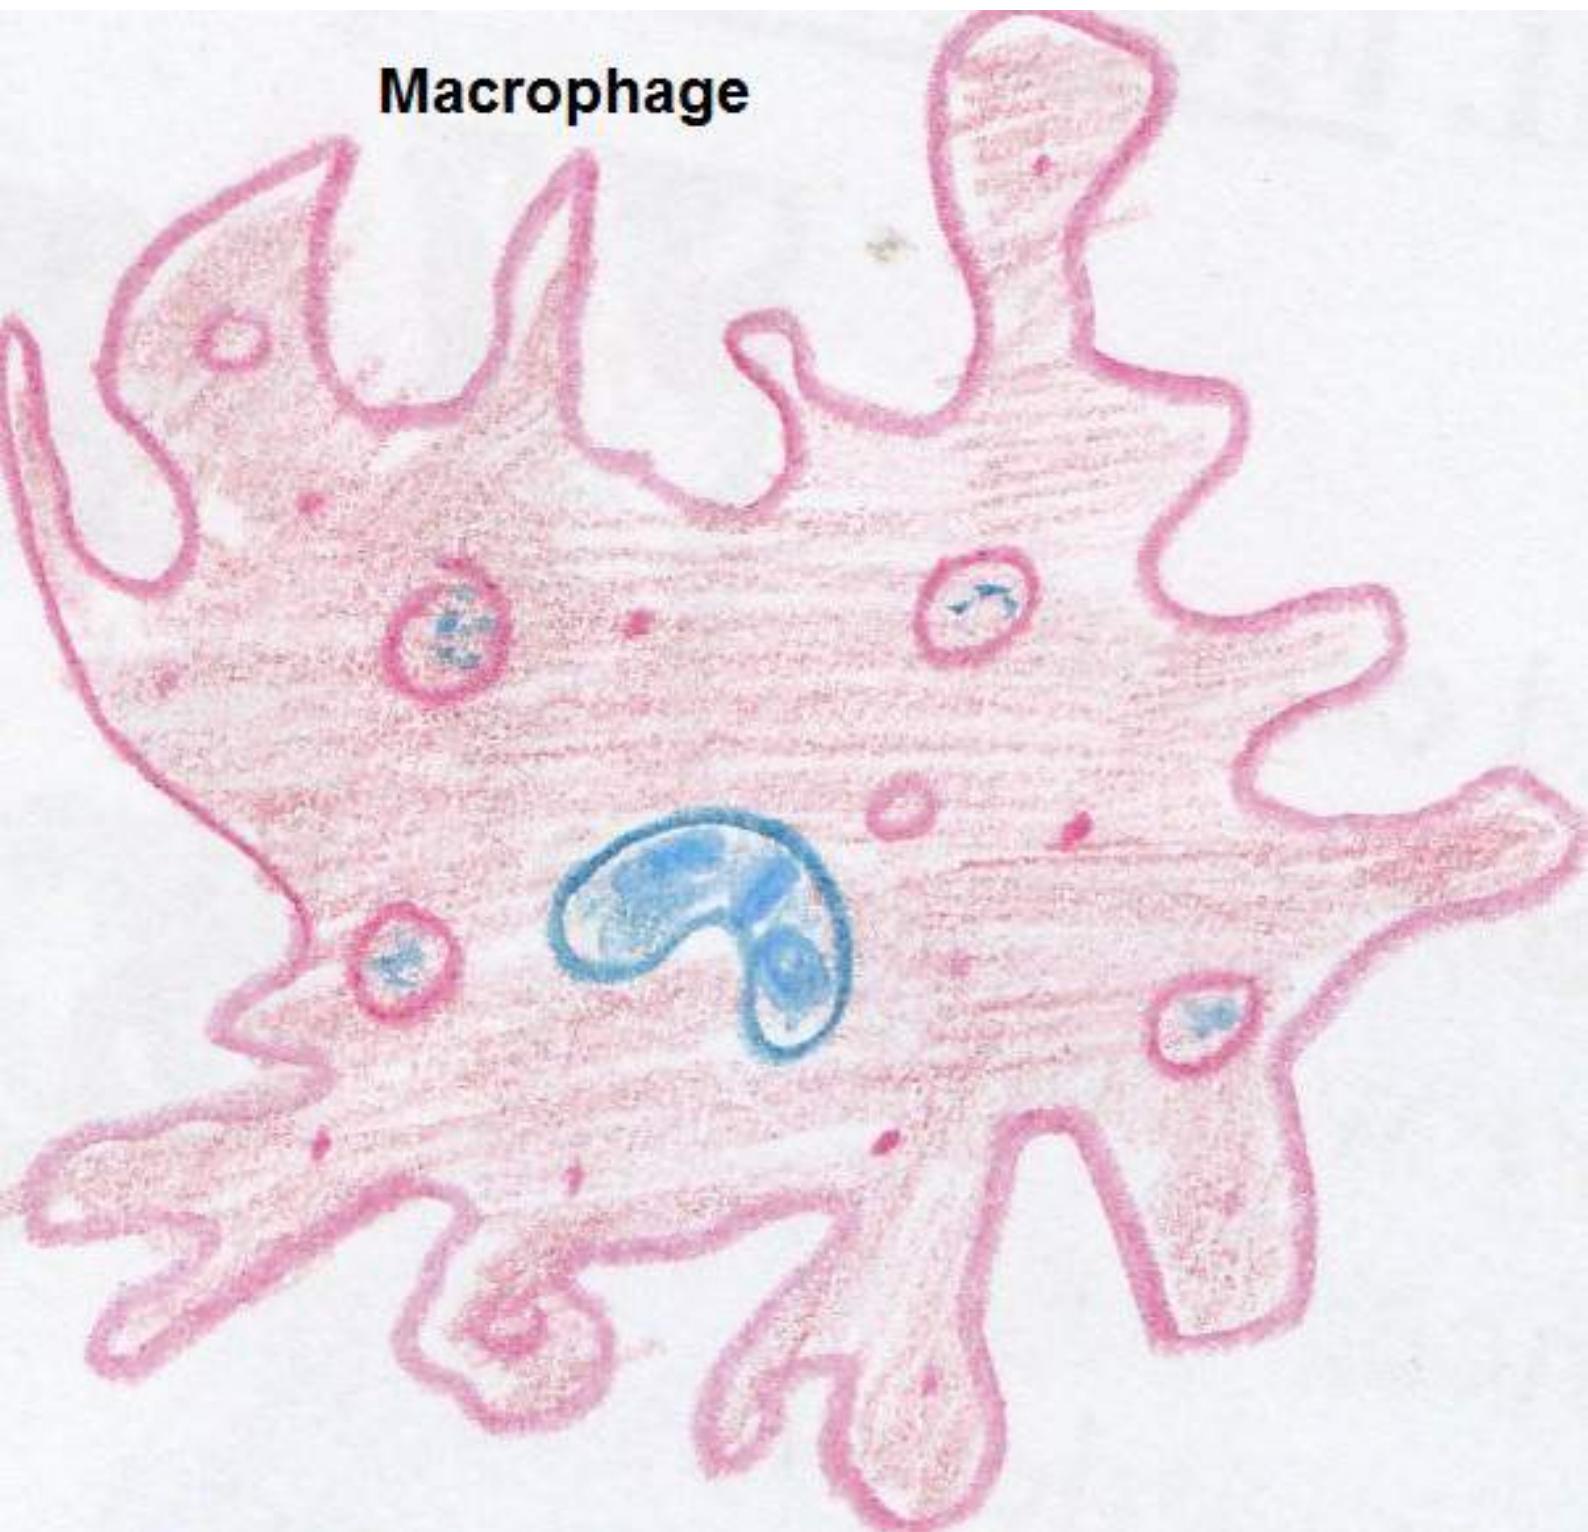

- Draw a labeled colored diagram for UMC

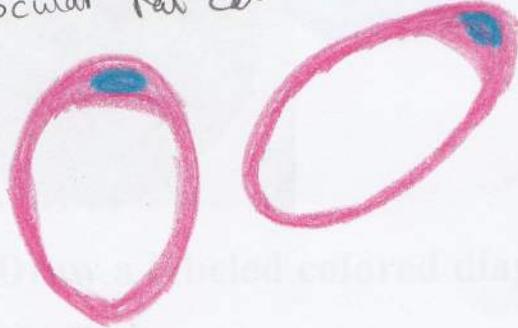

- Draw a labeled colored diagram for fibroblast

Macrophage

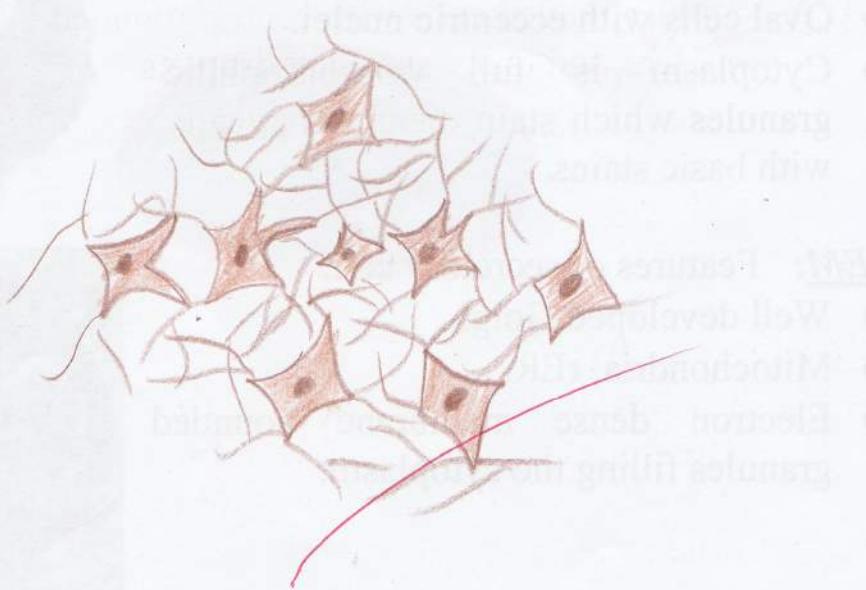

unilocular fat cell

Multilocular fat cell

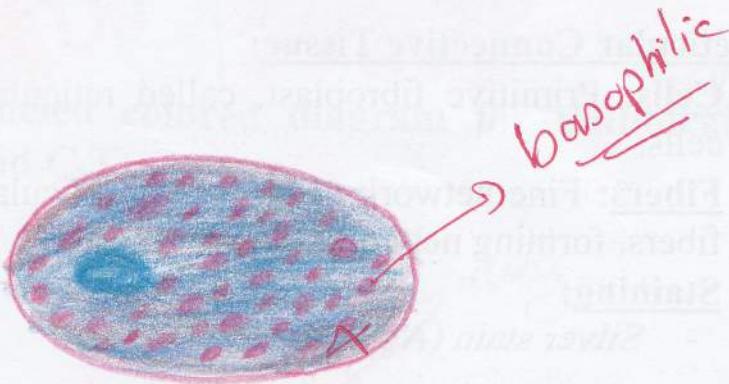

- Draw a labeled colored diagram for reticular cells

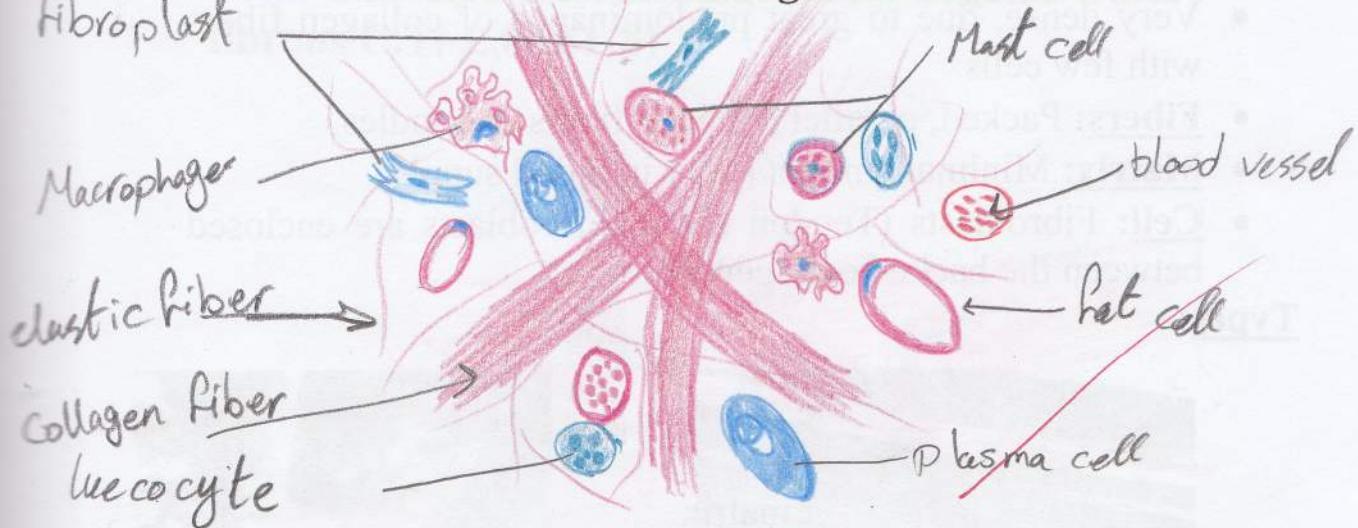

- Draw a labeled colored diagram for plasma cells.

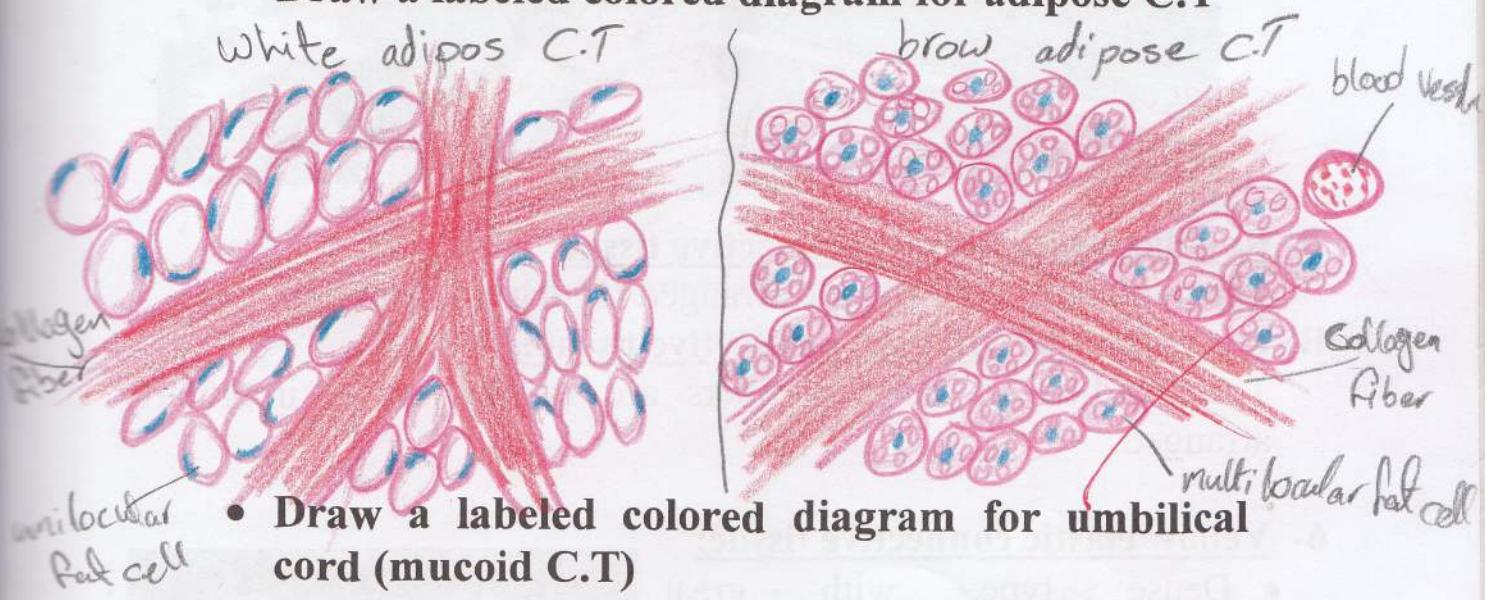

- Draw a labeled colored diagram for mast cells.

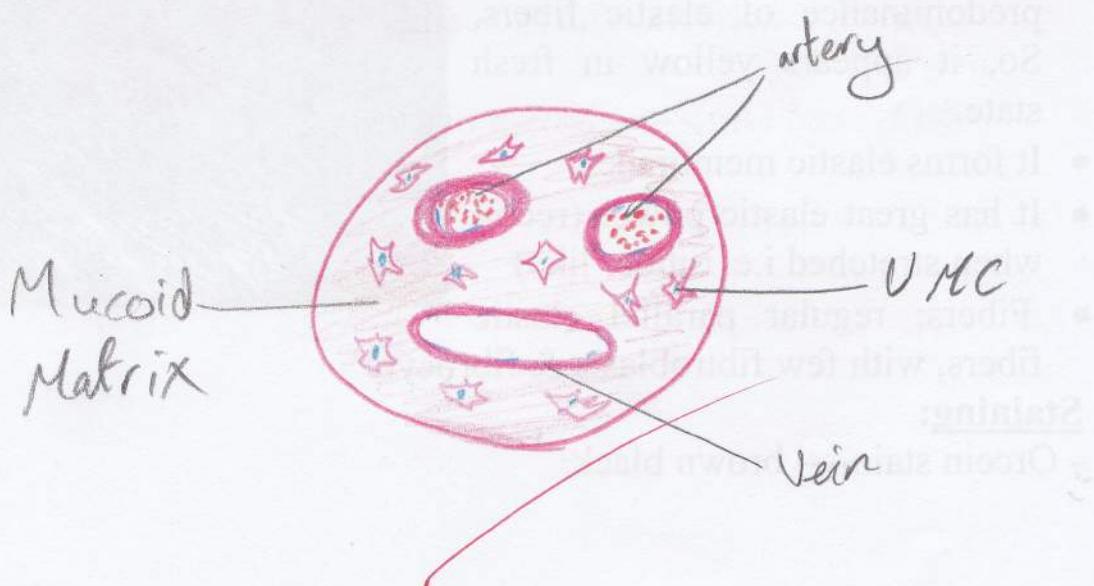

- Draw a labeled colored diagram for loose C.T

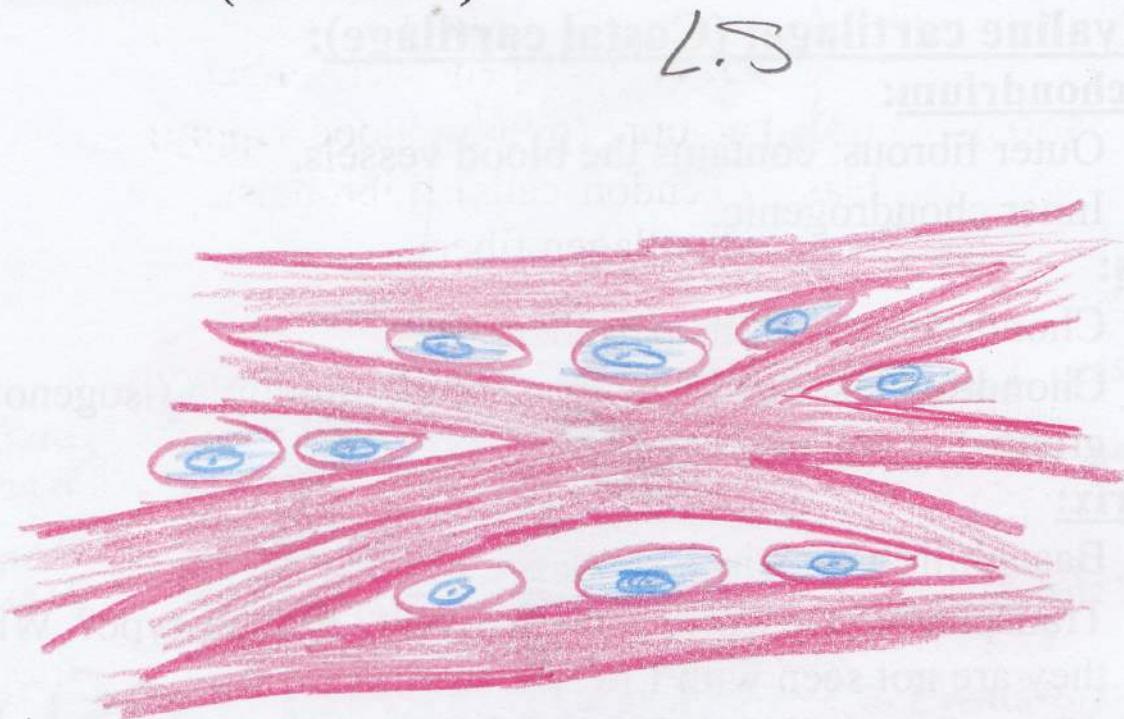

- Draw a labeled colored diagram for adipose C.T

- Draw a labeled colored diagram for umbilical cord (mucoid C.T)

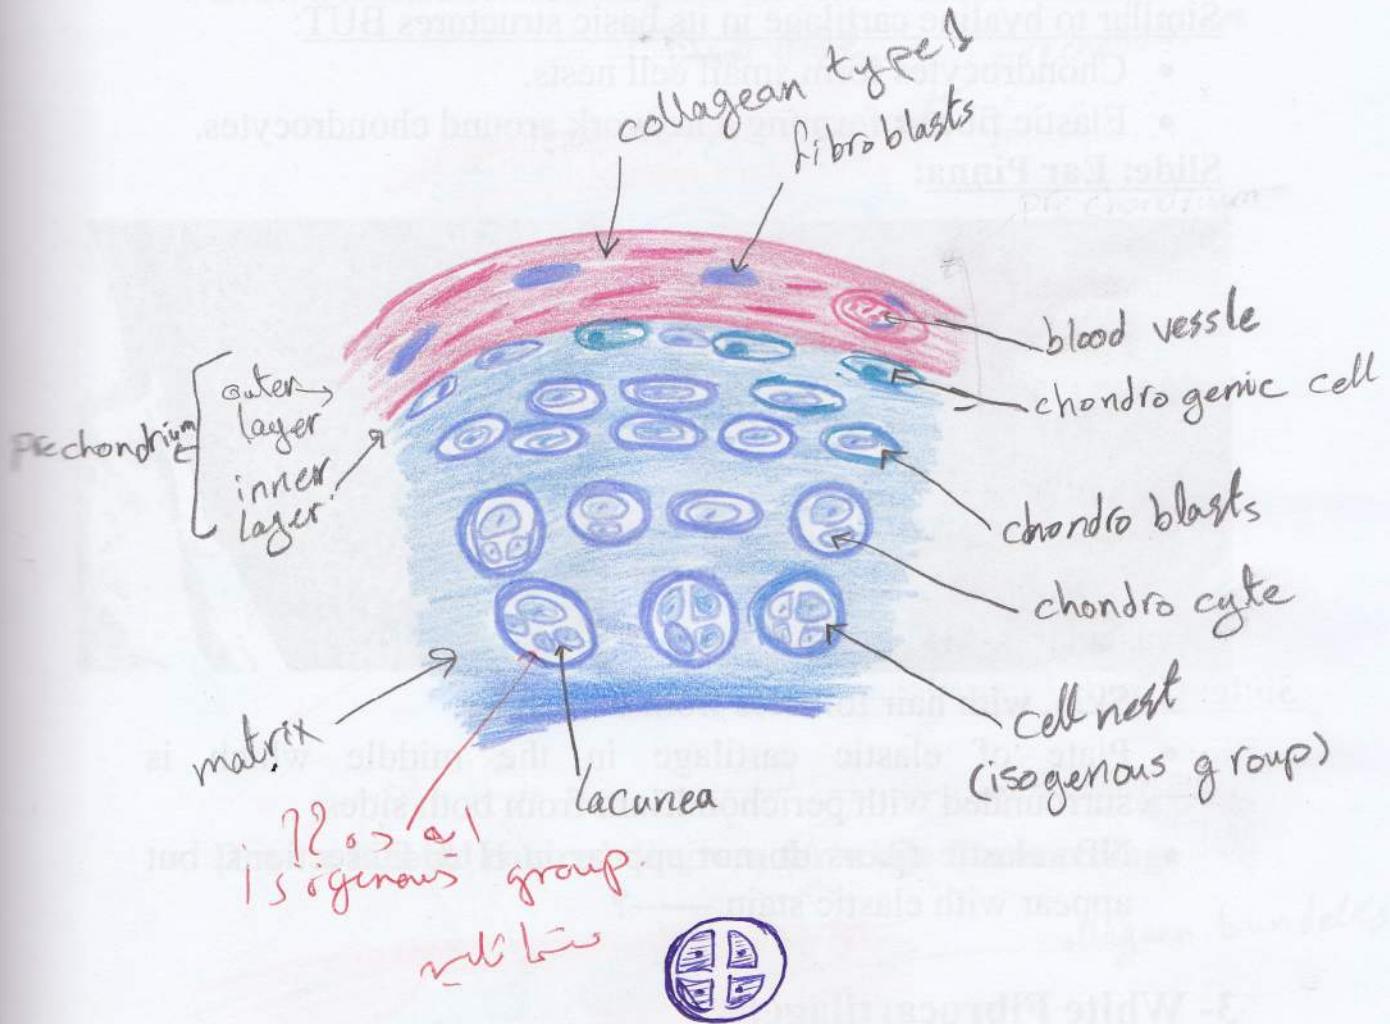

- Draw a labeled colored diagram for regular white fibrous C.T(L.S & T.S)

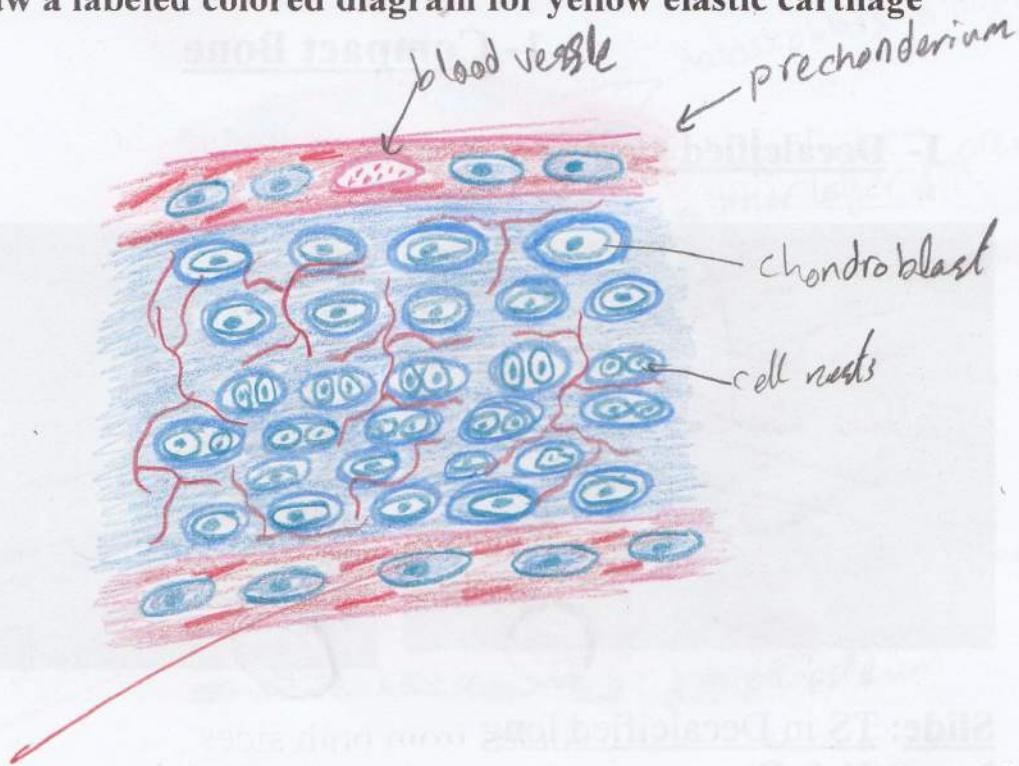

Naha.
10/12

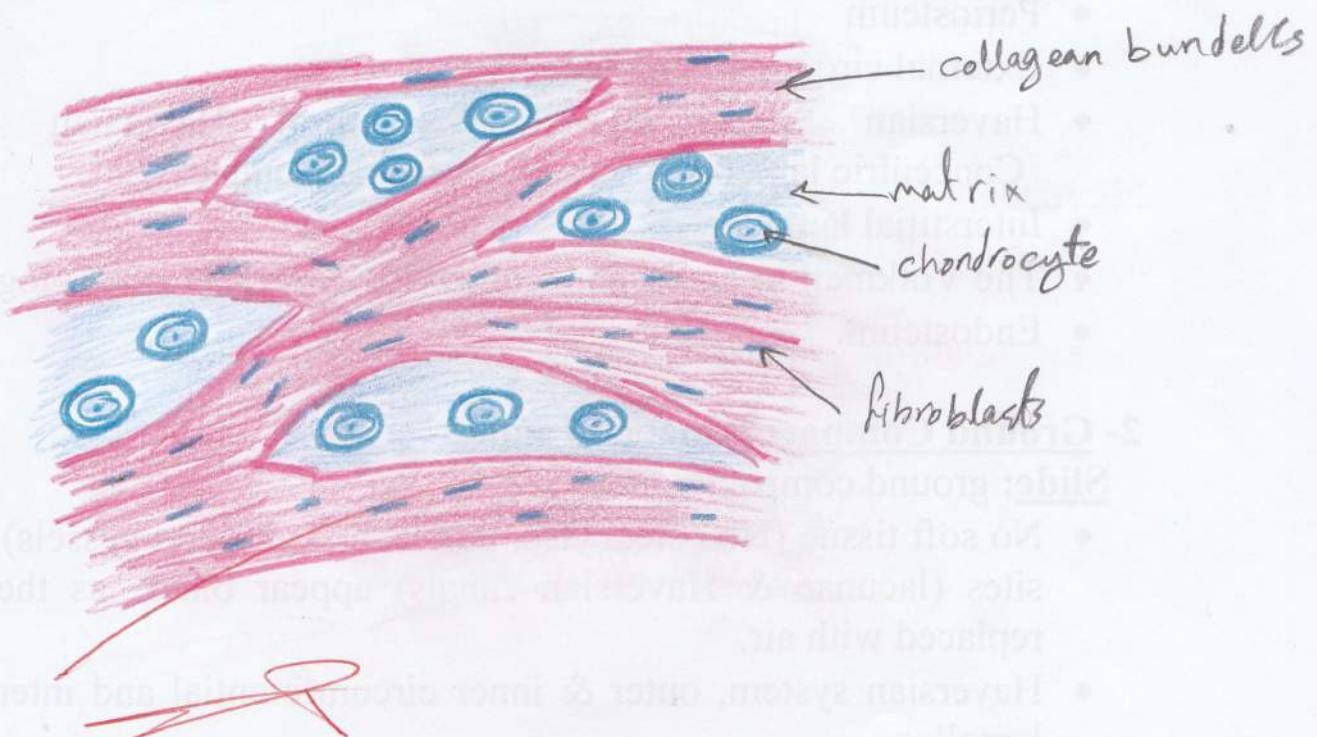

Draw a labeled colored diagram for hyaline cartilage

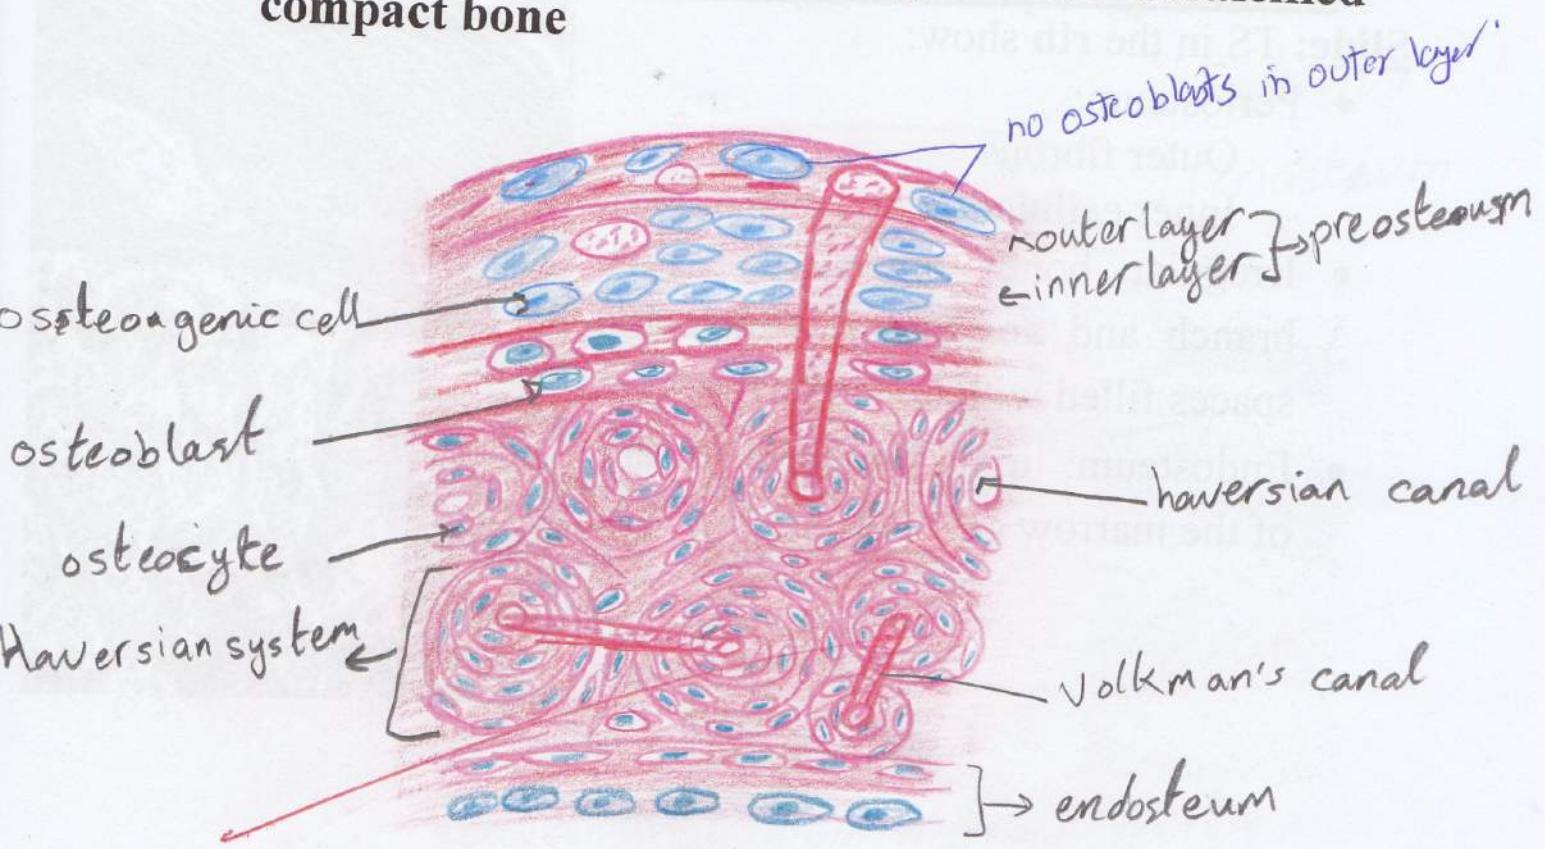

- Draw a labeled colored diagram for yellow elastic cartilage

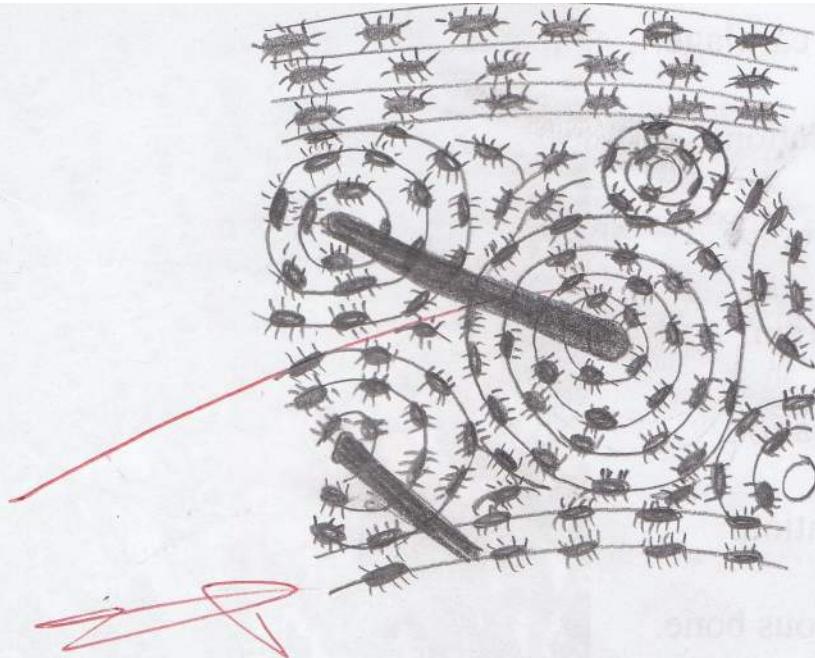

- Draw a labeled colored diagram for white fibrocartilage

- Draw a labeled colored diagram for decalcified compact bone

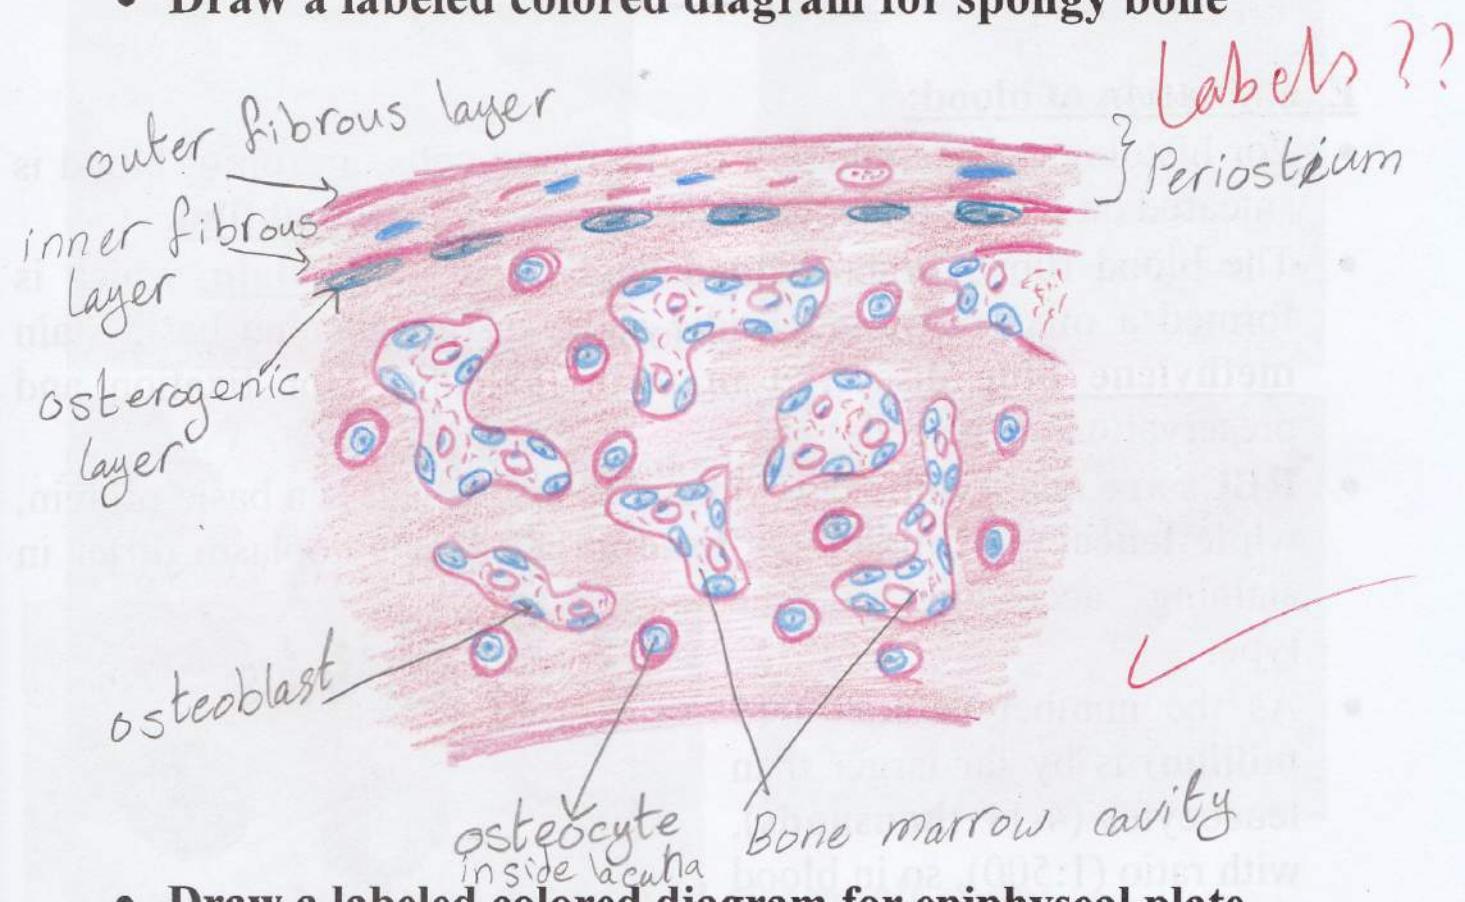

- Draw a labeled colored diagram for ground compact bone

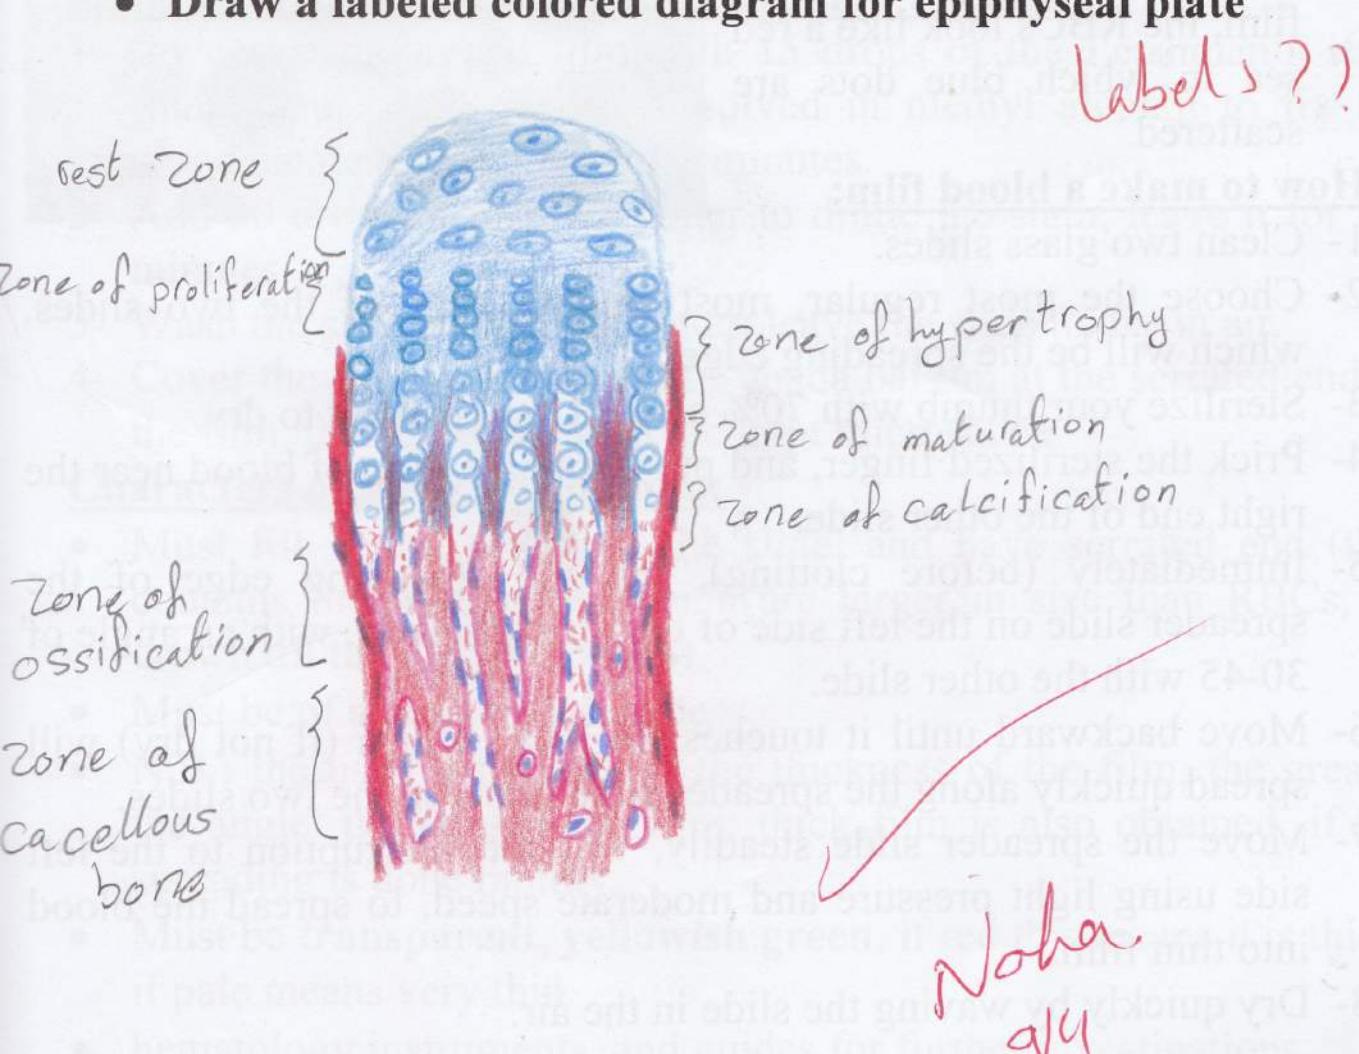

Ground Compact bone

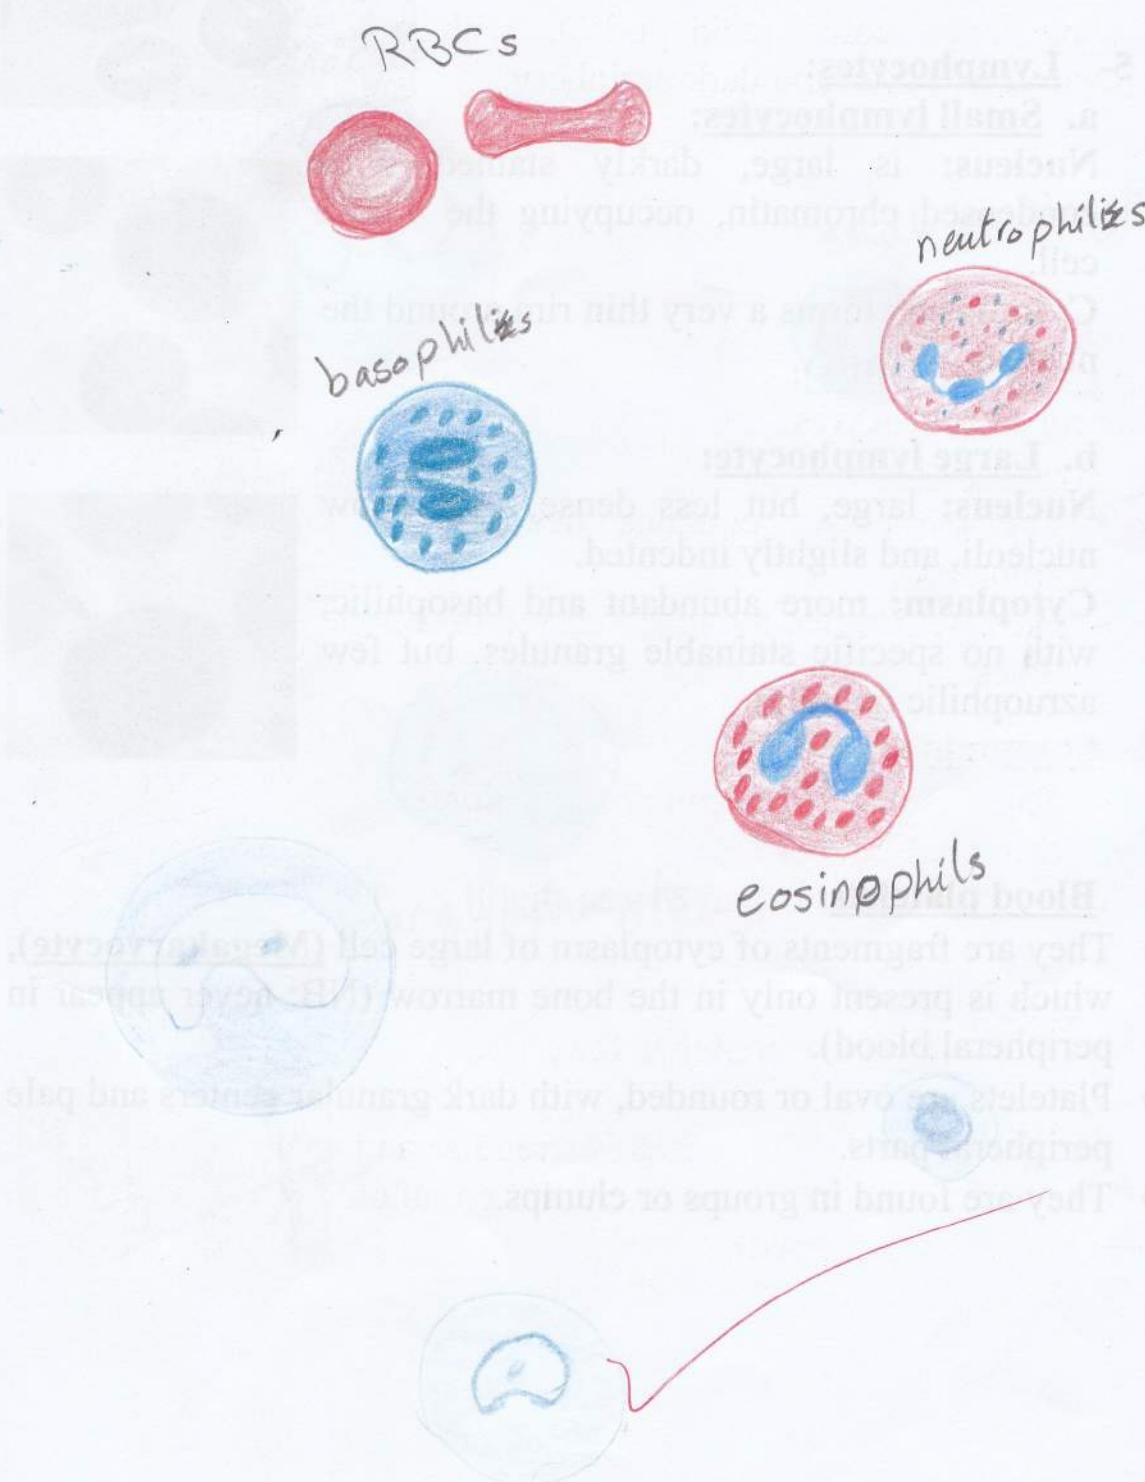

- Draw a labeled colored diagram for spongy bone

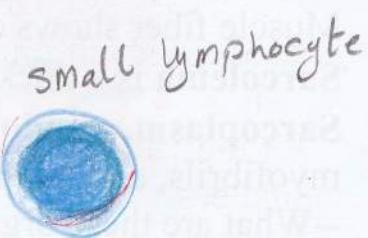

- Draw a labeled colored diagram for epiphyseal plate

- Draw a labeled colored diagram for RBCs & different types of granular leucocytes

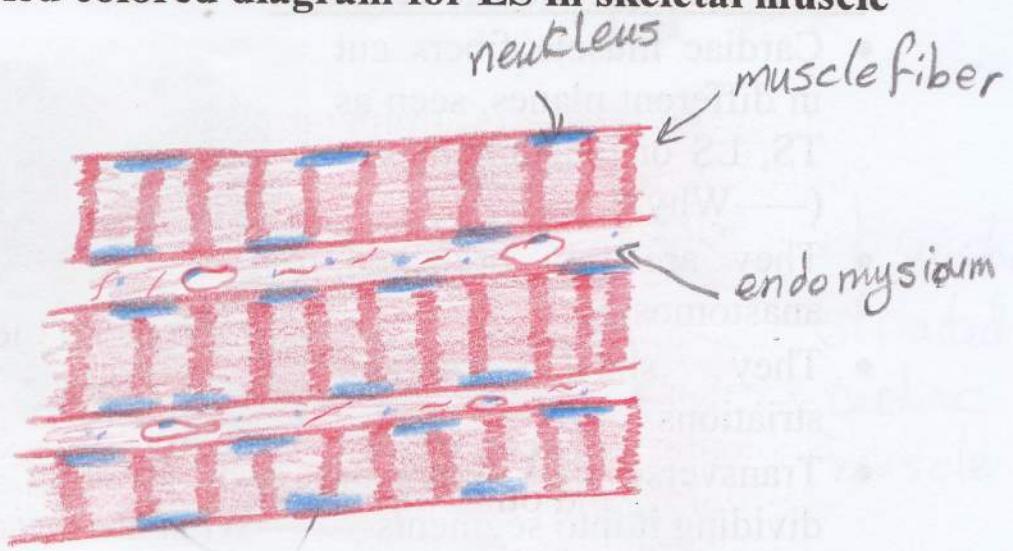

- Draw a labeled colored diagram for non-granular leucocytes

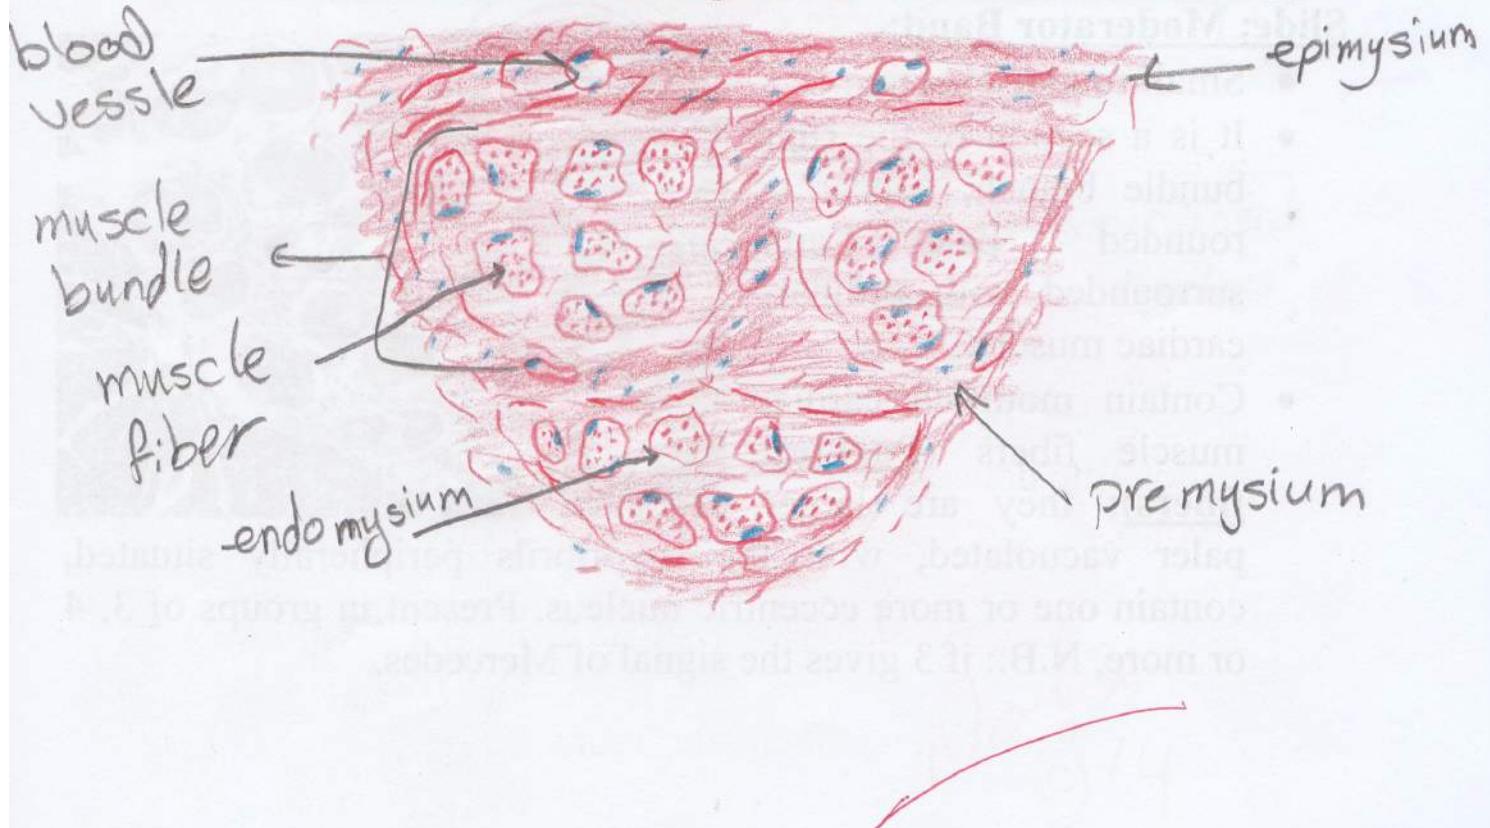

large lymphocyte

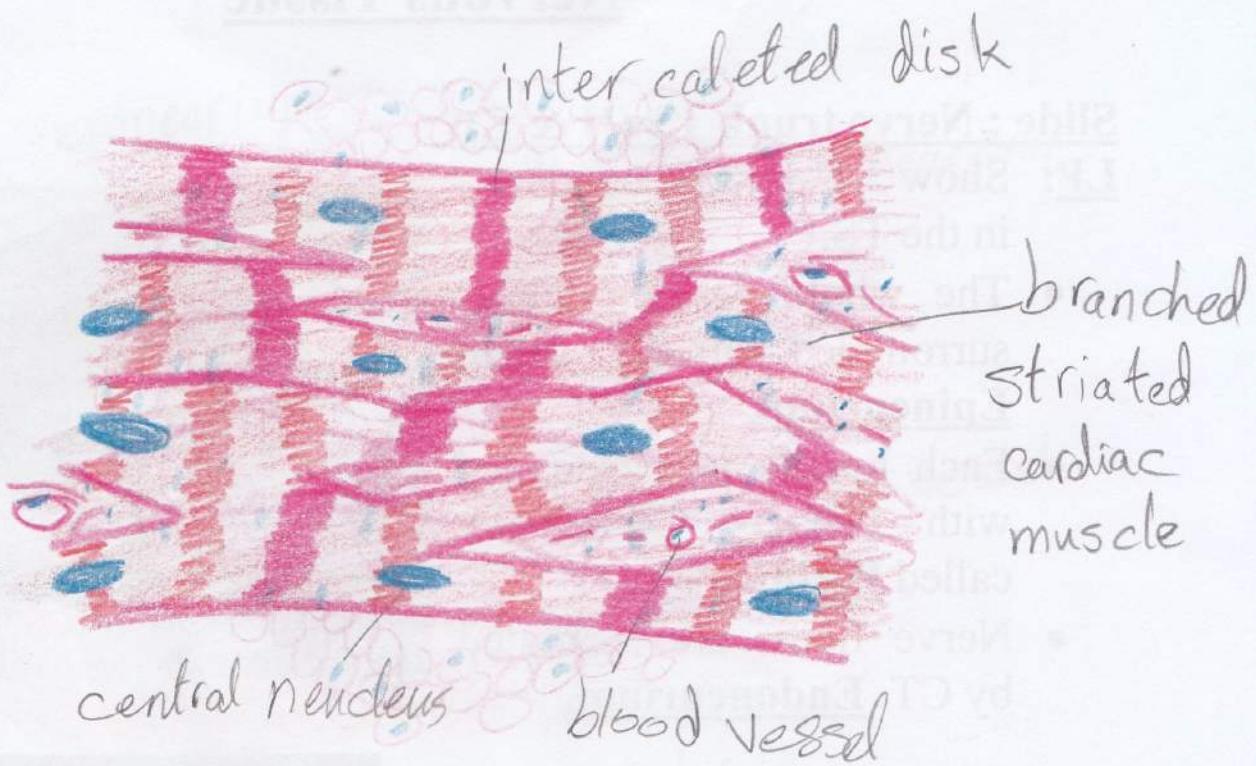

- Draw a labeled colored diagram for LS in skeletal muscle

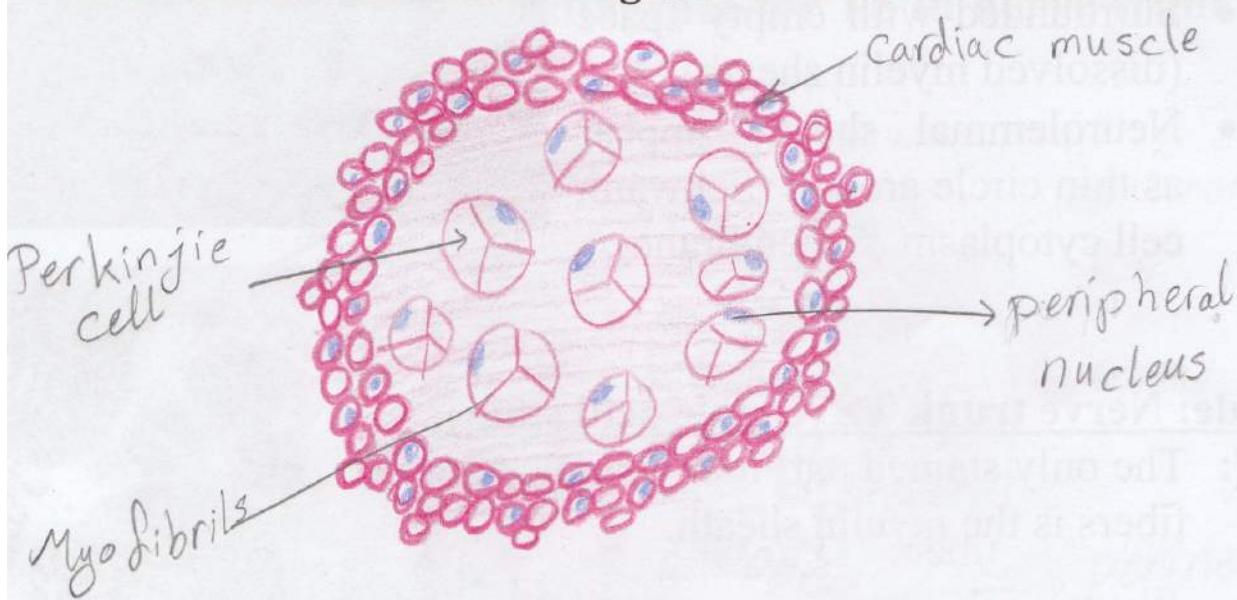

- Draw a labeled colored diagram for TS in skeletal muscle

- Draw a labeled colored diagram for cardiac muscle & valve

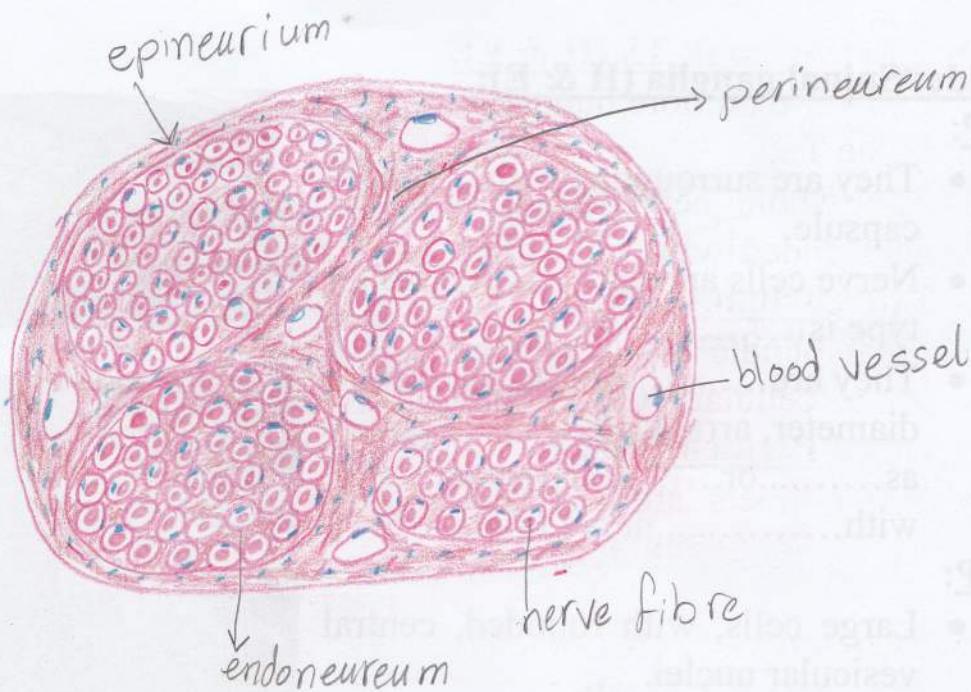

- Draw a labeled colored diagram for TS in moderator band

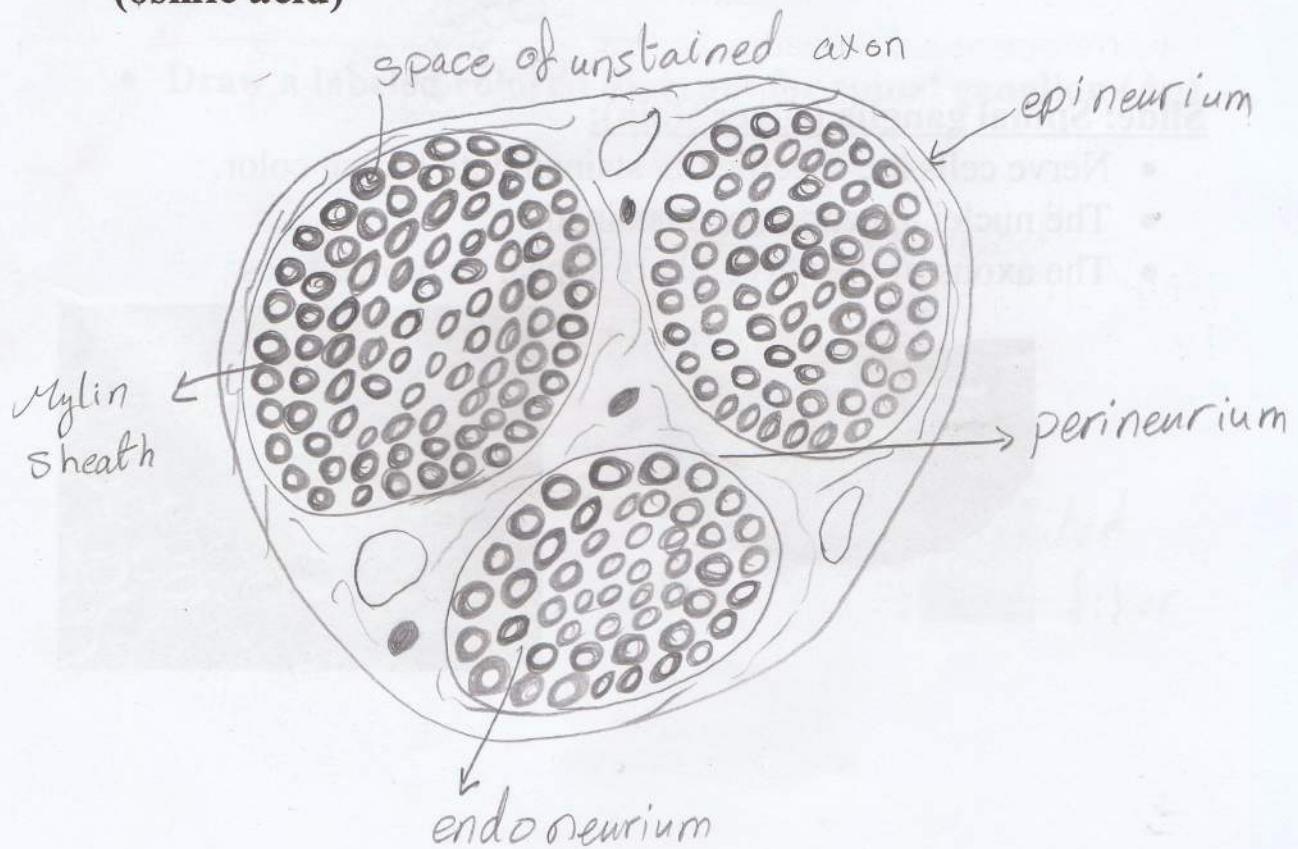

Noha
9/14

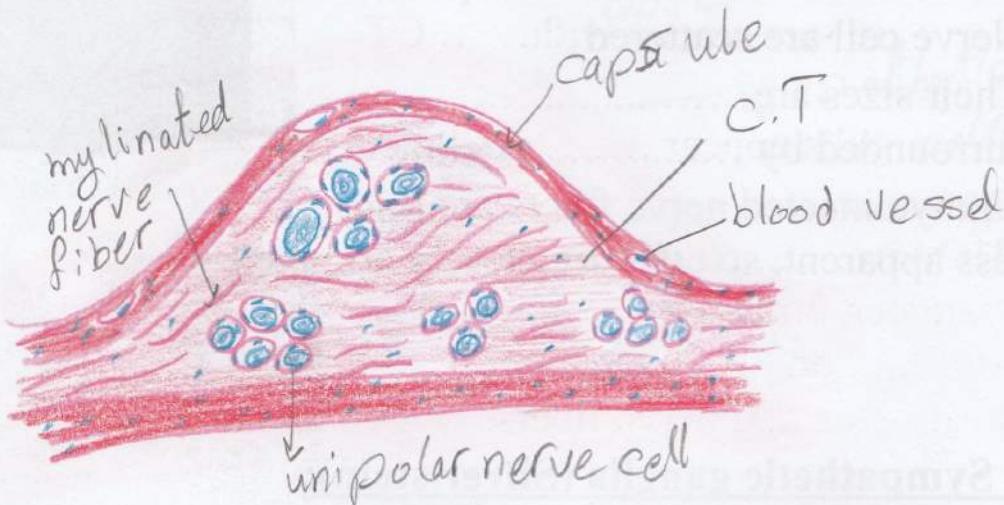

- Draw a labeled colored diagram for TS in nerve trunk (H&E)

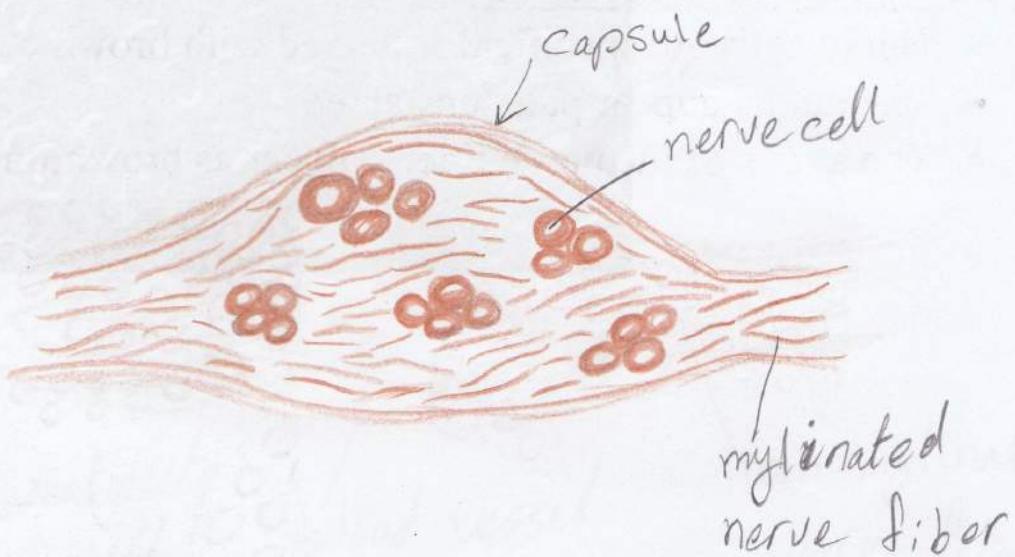

- Draw a labeled colored diagram for TS in nerve trunk (osmic acid)

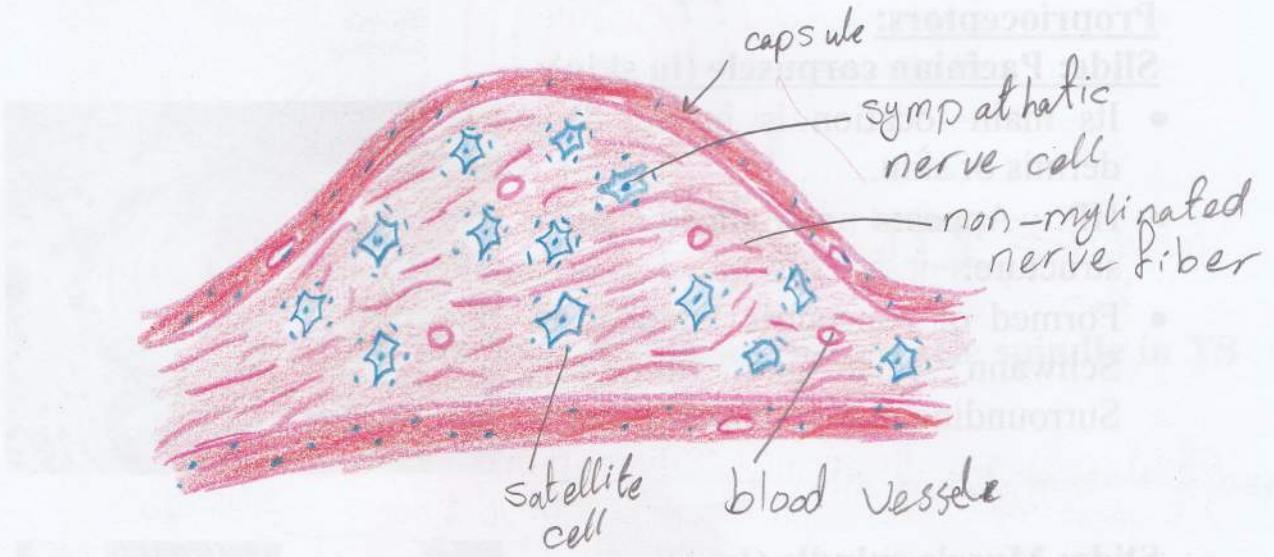

Draw a labeled colored diagram for spinal ganglion (H&E).

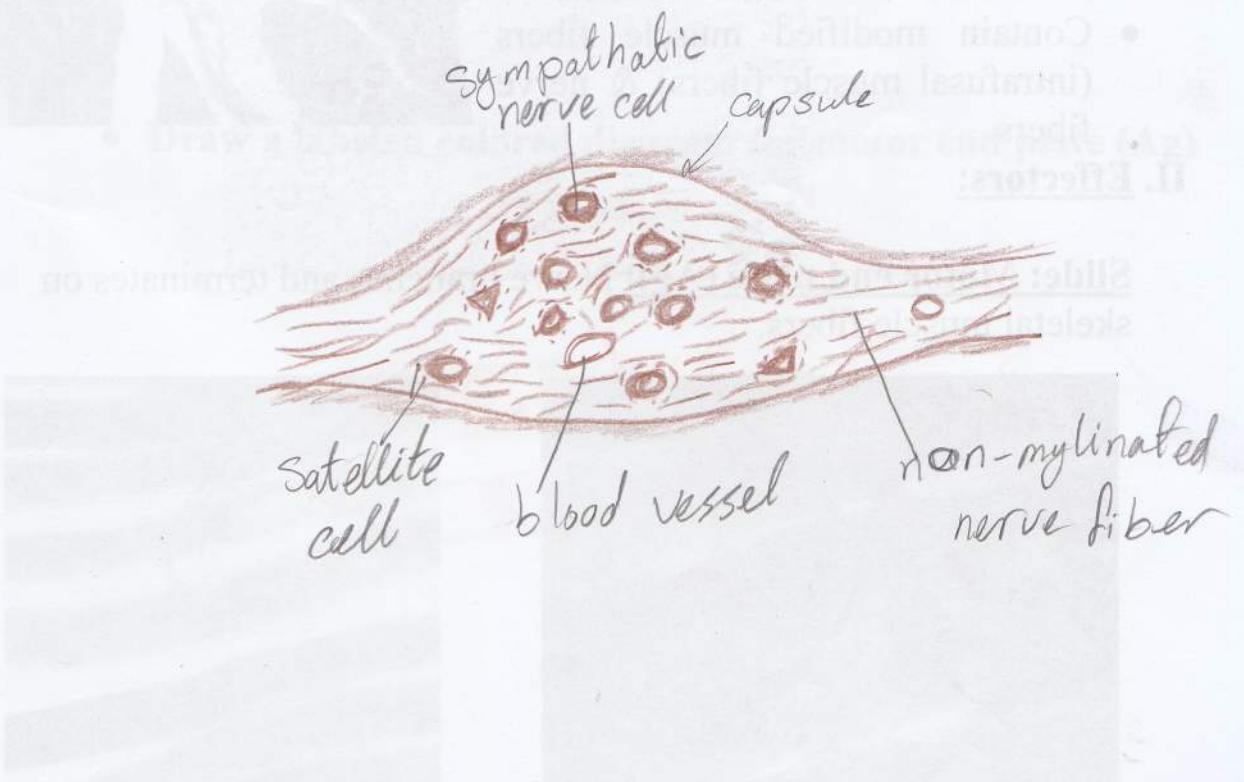

Draw a labeled colored diagram for spinal ganglion (Ag)

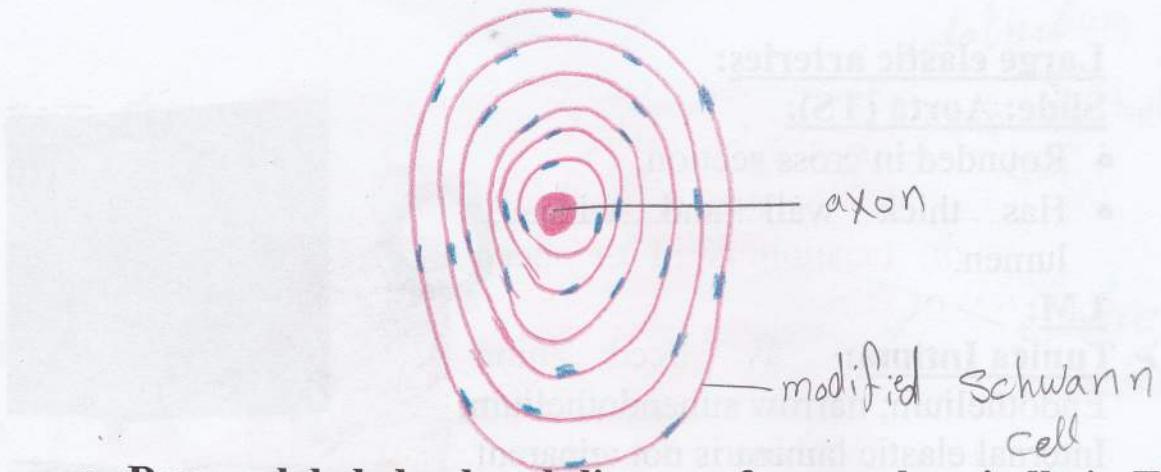

- Draw a labeled colored diagram for sympathetic ganglion (H&E)

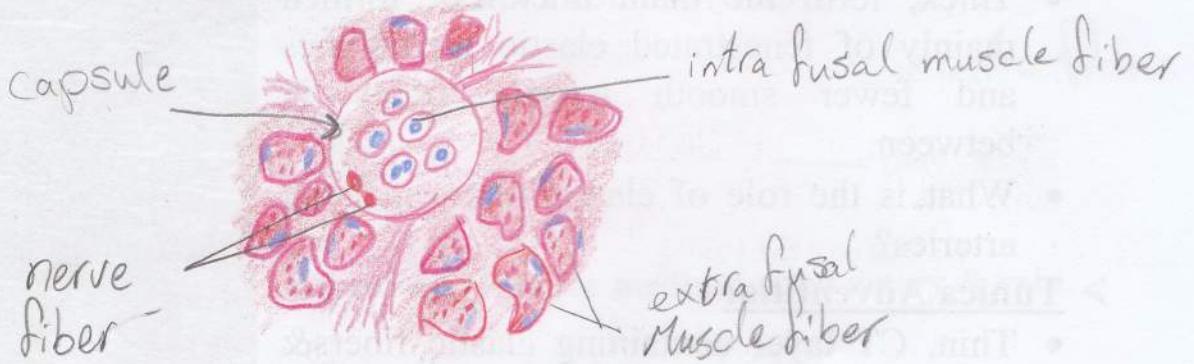

- Draw a labeled colored diagram for sympathetic ganglion (Ag)

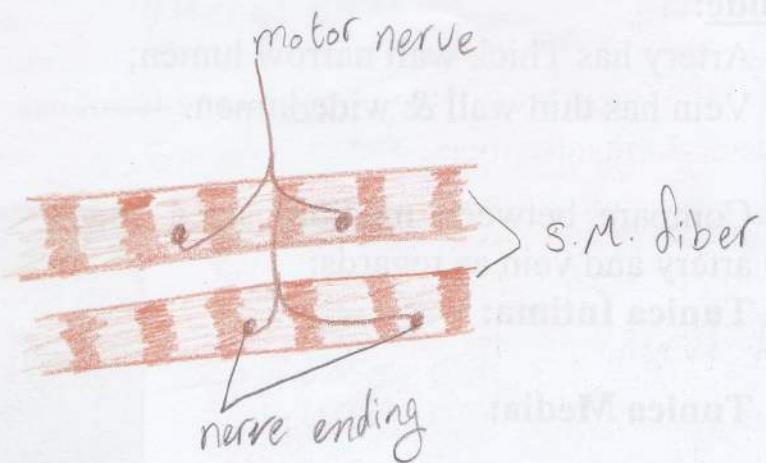

- Draw a labeled colored diagram for Pacinian corpuscle

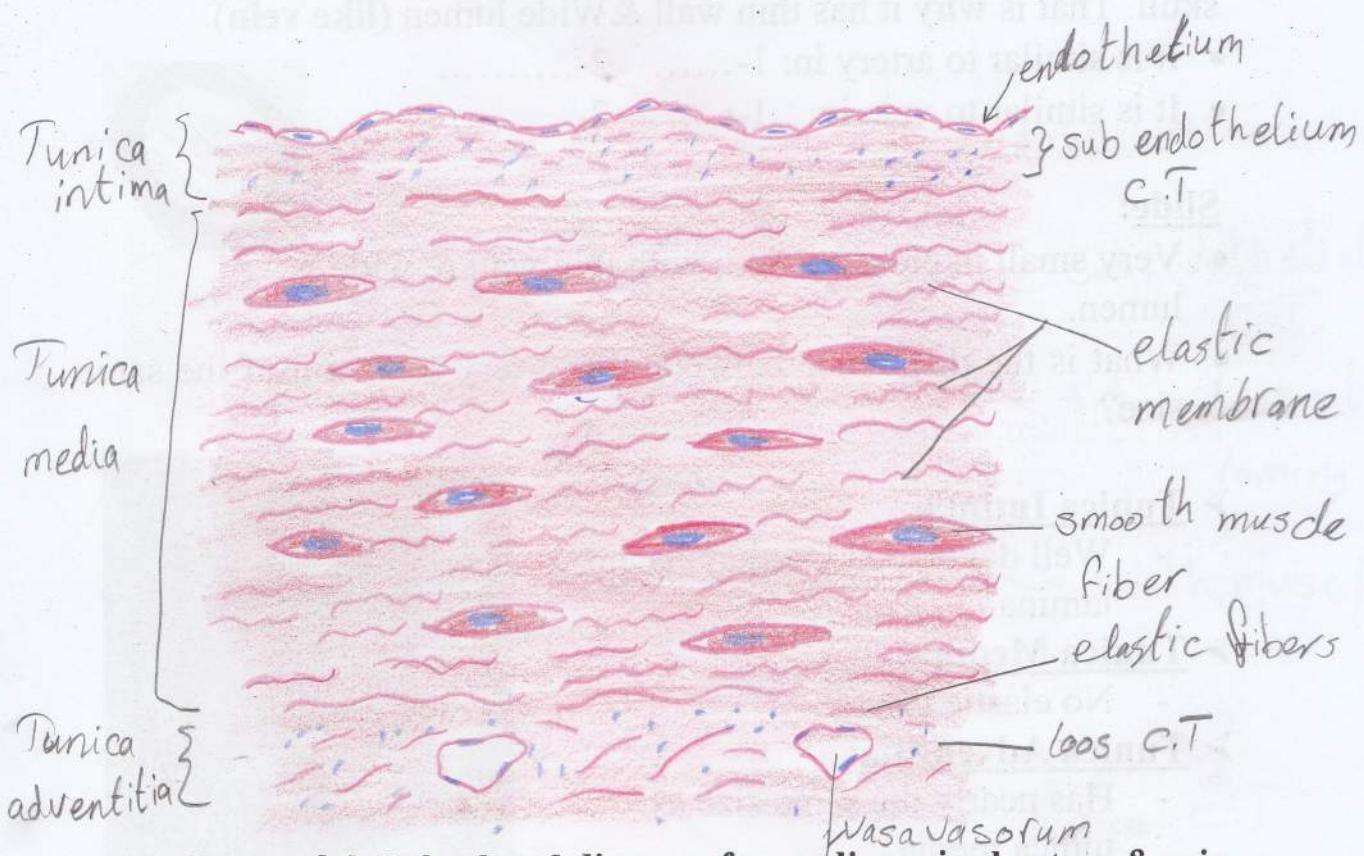

- Draw a labeled colored diagram for muscle spindle in TS skeletal muscle

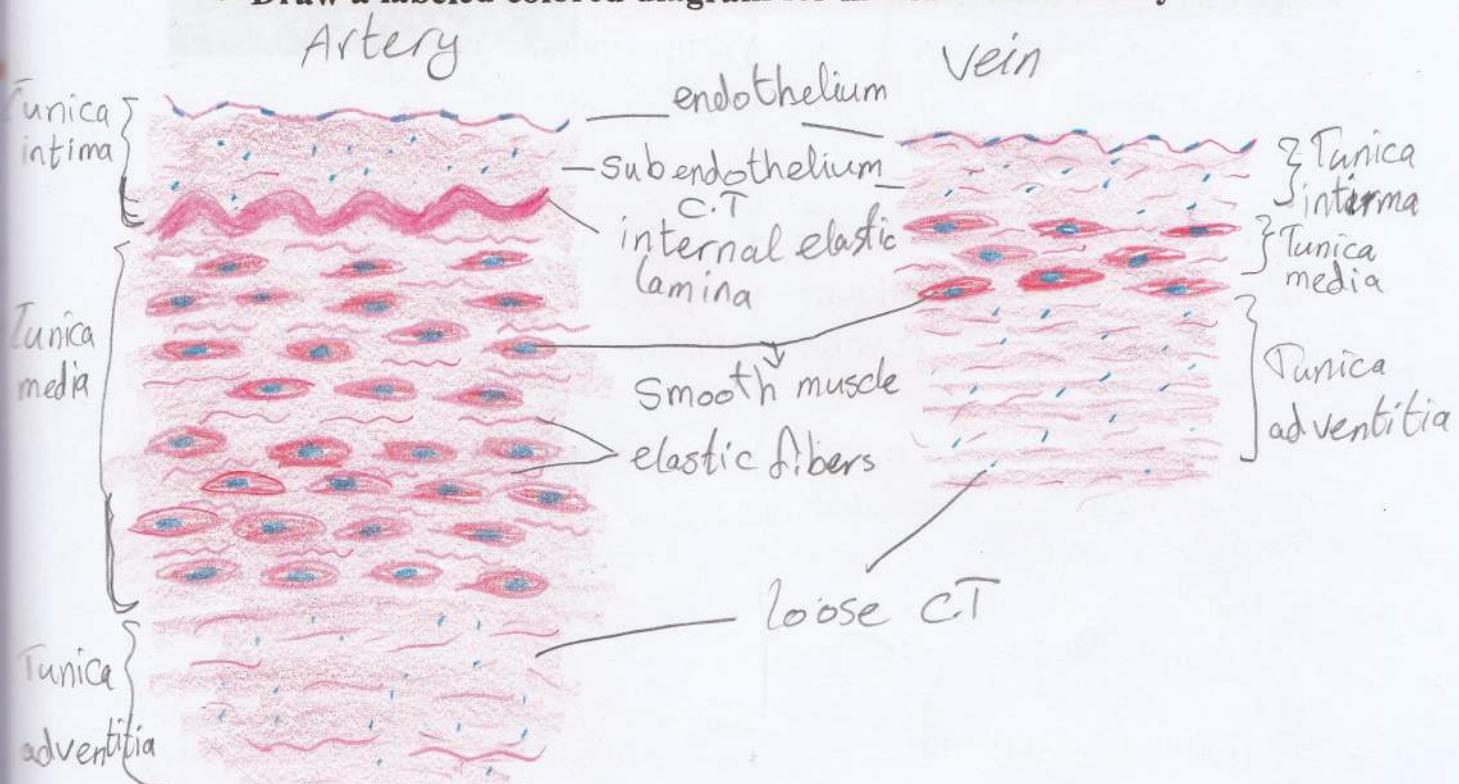

- Draw a labeled colored diagram for motor end plate (Ag)

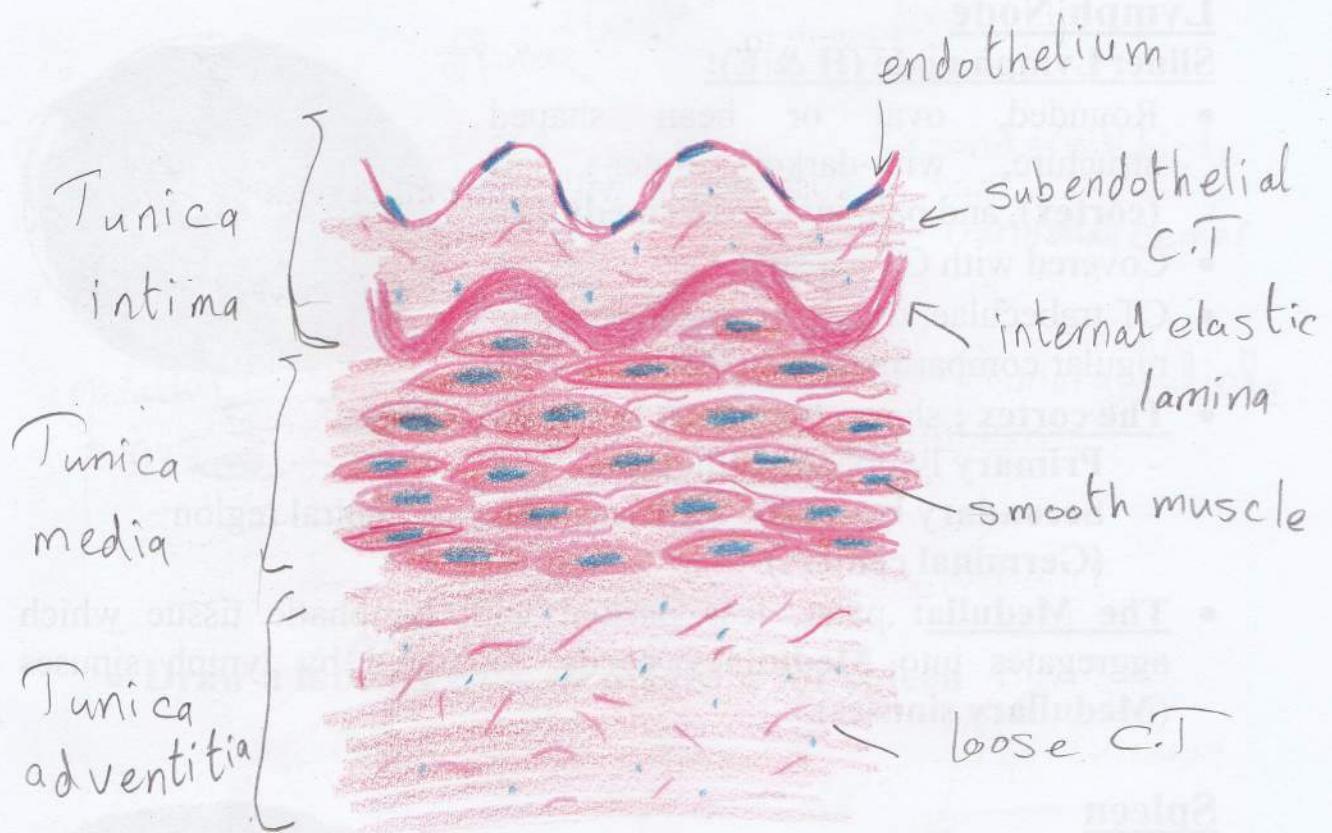

- Draw a labeled colored diagram for Aorta (TS)

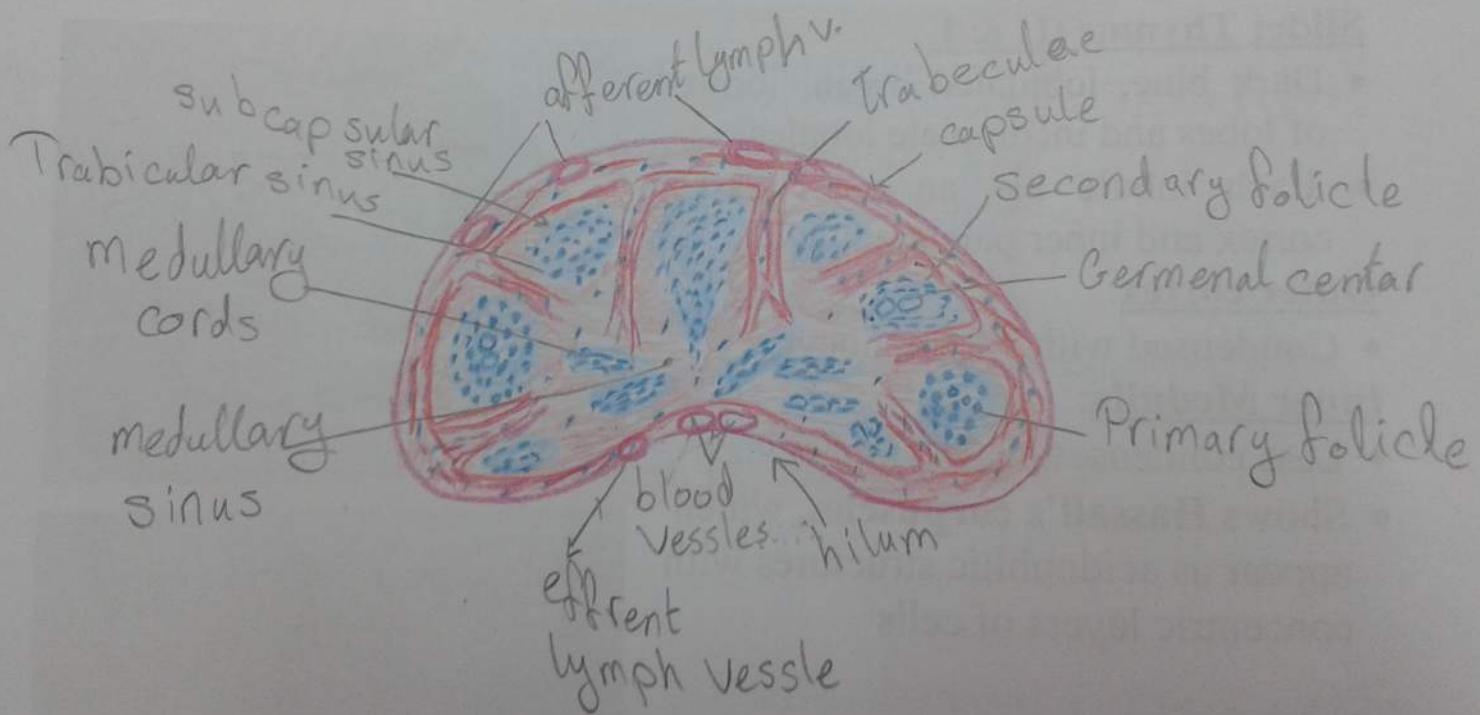

- Draw a labeled colored diagram for medium-sized artery & vein.

- Draw a labeled colored diagram for basilar artery

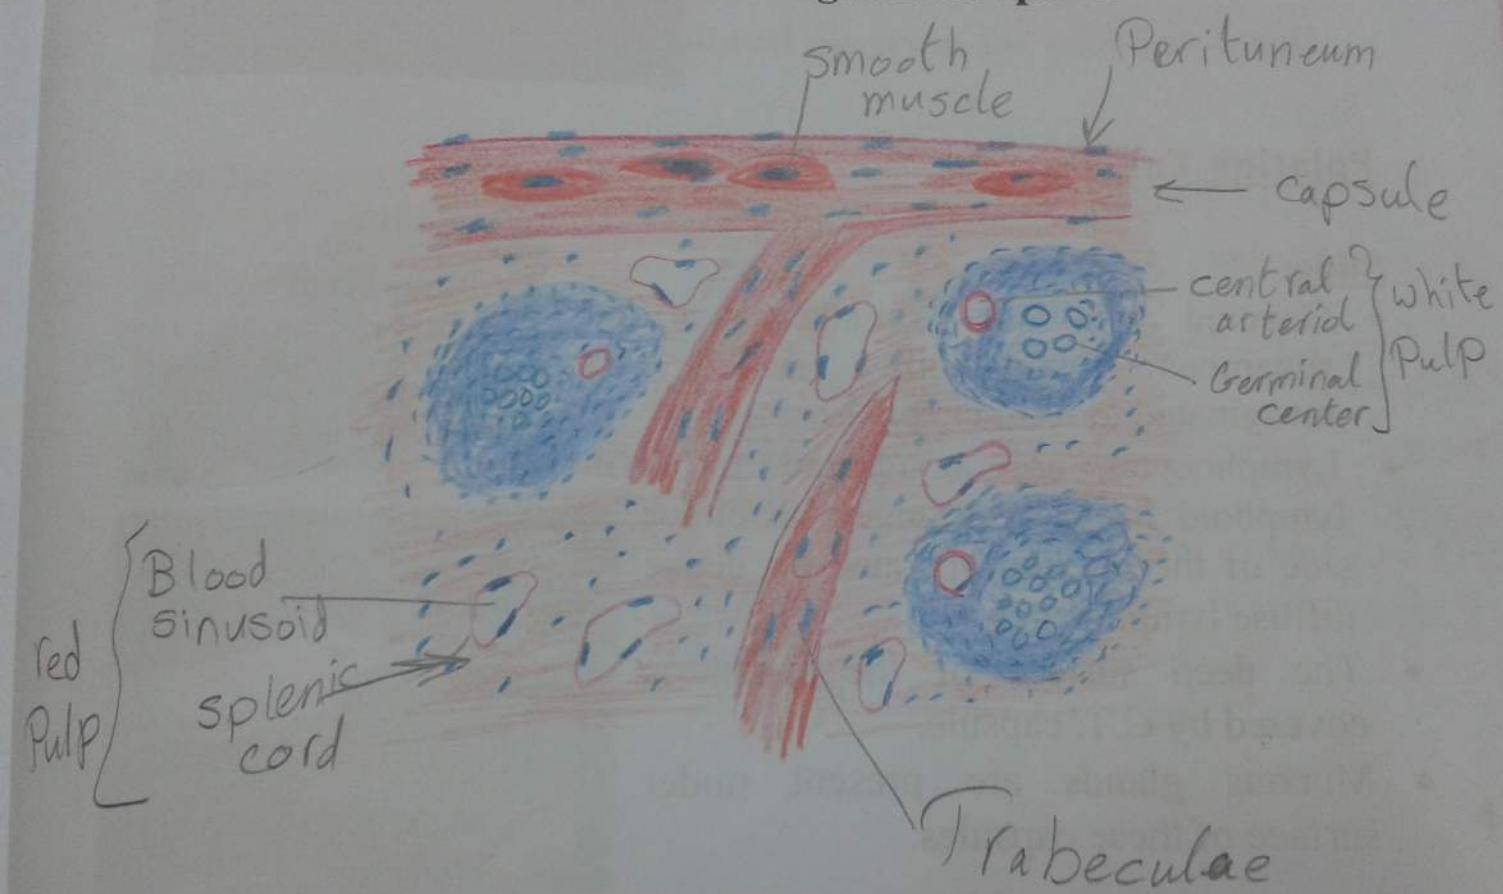

- Draw a labeled colored diagram for lymph node

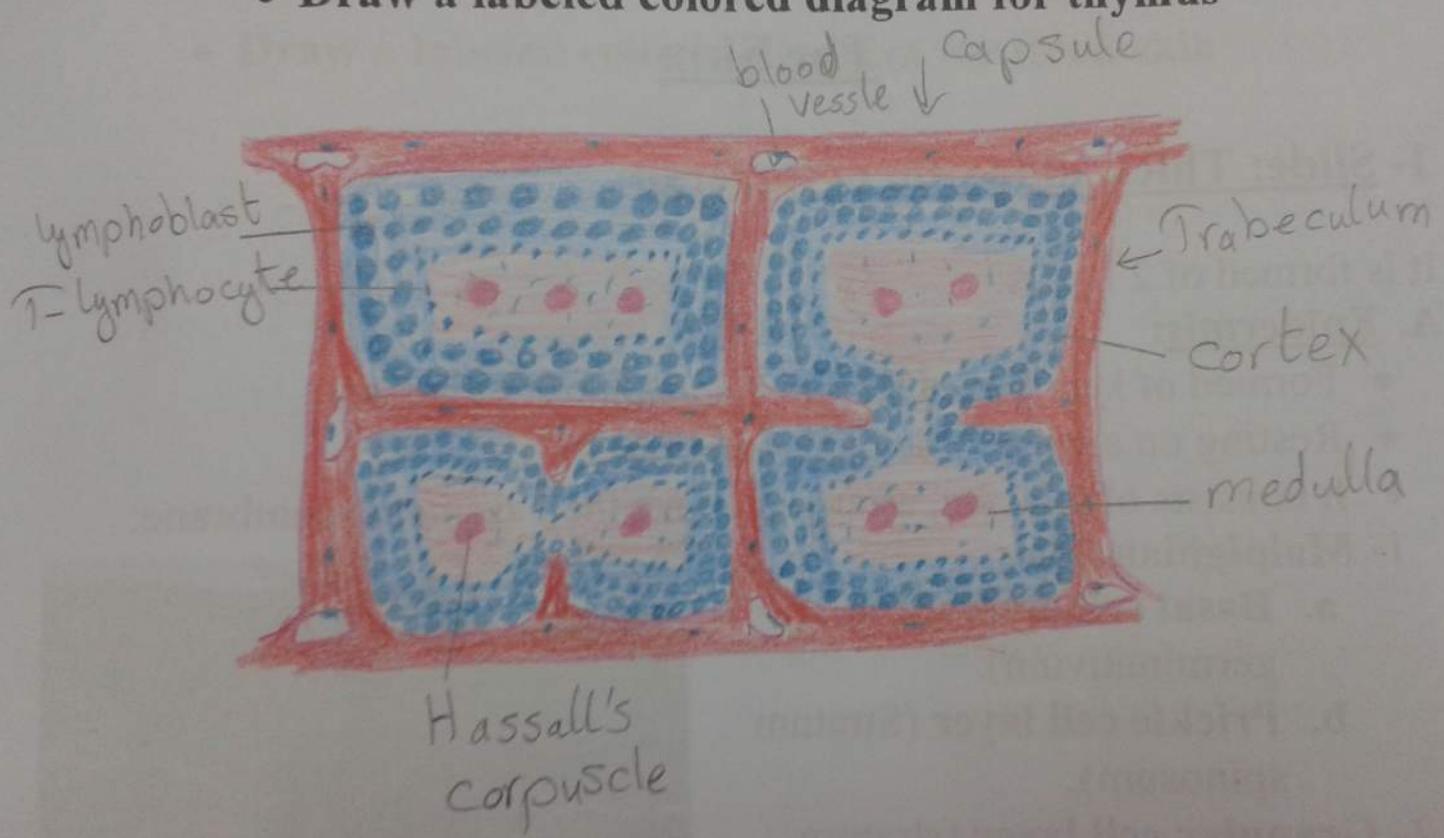

- Draw a labeled colored diagram for spleen

- Draw a labeled colored diagram for spleen

- Draw a labeled colored diagram for thymus

- Draw a labeled colored diagram for palatine tonsil

- Draw a labeled colored diagram for palatine tonsil
