❖ **Courses and Training Programs:**

- Basic Surgical and Clinical Skills course (June 2010).
- Immediate Life Support course (July 2010).

- Intern Training Program for Rural Outreach in Family Planning, and Women and Youth Health care (Ministry of Health and Population).
- Communication in Health Care.
- Ethics in Medical Practice.
- The basics of international publication of scientific research (2017)
- Ethics of Scientific Research (2017)
- Total Quality Management in Healthcare (2018)
- Psychological support for patients and their families.
- Infection control.

❖ **Language:**

- English as a second language.

❖ **IT Training:**

International Computer Driving License (ICDL).

❖ **Profile:**

I am a hardworking, motivated and eager to learn. I respect authority and never cease to learn from both superiors and peers.

I highly value patient-physician relationship and privilege. I see psychiatry as an anthropological science as much as a medical one. I hope to one day grasp the art of psychiatric practice as well as its theorem.

❖ **Career Aims:**

I would like to pursue a career in Psychiatry, hopefully getting more involved in academic research.
