

Auditing I

Group Project (2)

You are required to prepare and submit a group project on ONE of the following topics:

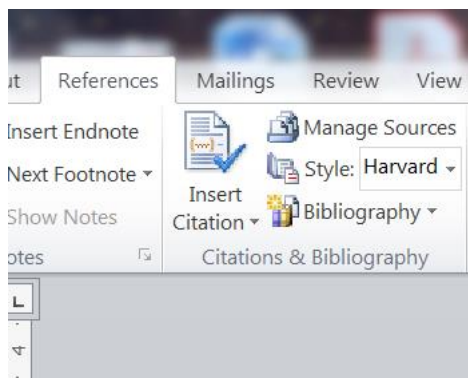

- 1) **How do digital currencies and block-chain technology reshape the auditing profession?**
- 2) **How do big data and analytics reshape the auditing profession?**
- 3) **Discuss forensic auditing and pinpoint the difference between an audit and a forensic audit.**

- You can search the internet search engines, textbooks, articles, or collect data through videos, interviews, questionnaires... Be creative!
- The minimum number of group members is 3 and the maximum is 5. NO FREE RIDERS!
- The report shall be submitted as a hardcopy and shall not exceed 10 pages (including the title page, table of contents, and references).
- Be ready for providing a presentation on your work.
- You shall use Harvard referencing style to cite the sources you depend on throughout your report.

Use this link for a comprehensive guide:
