General Medical Experience

In Egypt, I worked for 3 years as resident in Internal Medicine department, Kasr Al Ainy Medical School, Cairo University; which is considered the largest tertiary referral hospital in Egypt, playing a major role in the health care management.

I deal with Heart diseases, Neurological, Gastro-intestinal, Chest, Metabolic and Renal problems. I have also been involved in dealing with critically ill patients.

Kasr Al Ainy New Hospital

- I work as assistant lecture in internal medicine department.
- My duties mainly involved in dealing with different endocrinological problems, hypertensive, gastrointestinal, neurological & renal problems.

I am familiar with routine practical procedures, e.g.,

- Venepuncture, lumbar puncture.
- Ascitic fluid tapping, pleural fluid aspiration.
- Endotracheal intubation (including pediatrics), mechanical ventilation and CVP line insertion etc..

Special Nephrological Experience

I worked as resident for 30 months in different nephrology units at Kasr Al Ainy Medical School, Cairo Univeristy.

- ✓ Where I had been supervising more than 700 sessions of
 - more than 700 sessions of hemodialysis.
 - 15 sessions of plasma-phoresis.
 - 10 sessions of hemodifiltration.
- ✓ Resident of King Fahad Unit for Dialysis and Renal Transplantation for 6 months. Nephrology unit of Cairo University (King Fahd unit) is considered one of the largest nephrology centers in Egypt.
 - Where I had been supervising: more than 500 sessions of hemodialysis in acute renal failure patients & patients with chronic renal failure on regular dialysis prented to unit with acute condition.
 - I follow up about 50 cases with chronic renal failure on regular diaylasis in king fahad unit (3sessions per week).
 - I had been supervising more than 50 sessions of peritoneal dialysis.
 - I also trained for doning renal biopsy by using Tru-cut needles guided by ultrasonographic localization of the kidneys.
 - I was involved in team of renal transplantation in king fahad unit, where I had a good experience in performing different cases of renal transplantation.

While working in different nephrology units at Kasr Al Ainy Medical School, Cairo Univeristy, became familiar with emergency procedures.

Hospitals I have access to:

1. Kasr Al Ainy Medical School, Cairo University.
2. New Kasr Al Ainy hospital, Cairo.
3. Dar AL-fouad hospital
4. Nephrology and urology international hosiptal

Languages:

1. **Arabic**: Mother language.
2. **English**: Excellent & Fluent.

Personal skills:

- Self motivated, energetic & ambitious.
- Can work under pressure.
- Very good communication skills.
- Ability to work individually & as a co-operative team member.
- Eager to learn.

Computer Skills: Good Handling of Computers & Internet.

- **Microsoft office**: fluent in word, excel & power-point.
- **Internet**: fluent in using internet.

Interests And Hobbies:

- Reading, traveling & football.
- Surfing the net & learning about computer and internet.

Career Objectives

- Seizing the opportunity to learn & co operate with my fellow worker to obtain a proper working climate to achieve our optimum level for success.
- Seeking a challenging opportunity at such a reputable institution where by I can build on and further enhance my capabilities.
- My intention is to practice as a Clinical Nephrologist in Egypt. Kidney diseases are growing epidemics in our population. I would like to put my experience in clinical and interventional Nephrology to the service of my people.
