Note:

I do not have access to the Diploma General Virology course (VIR 4175). Once it has been correctly assigned to me in Blackboard by university administration, I will post the dates and times of lectures. For now, let us plan to have it in-person every Thursday from 2-4 PM. Later, we can have the lectures online using Blackboard at the time most suitable to you.

Stay safe.

Ausama A A Yousif, Professor.
