

Normal Prophase

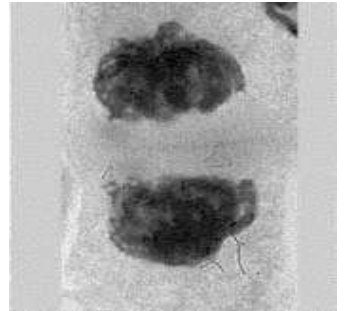

Normal Metaphase

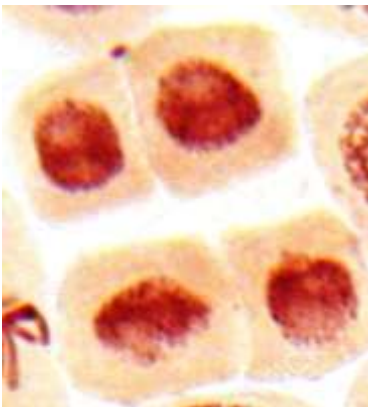

Normal Anaphase

Normal Telophase

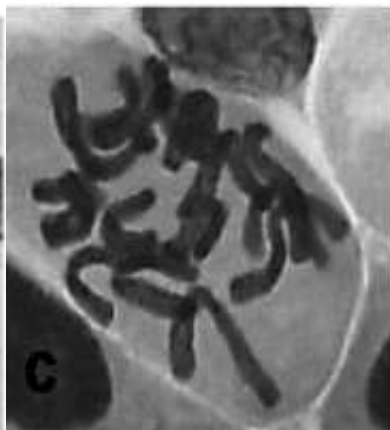

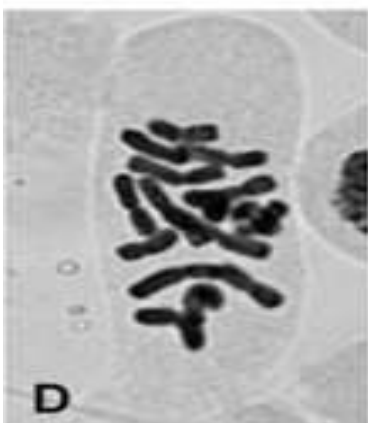

Normal Interphase

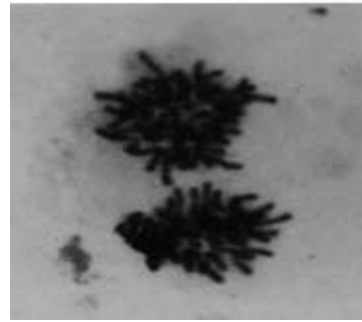

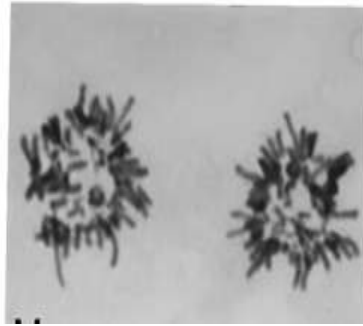

Aberrations

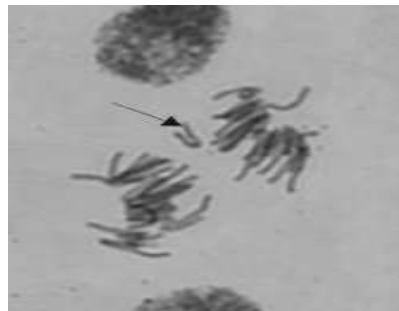

C-Mitosis

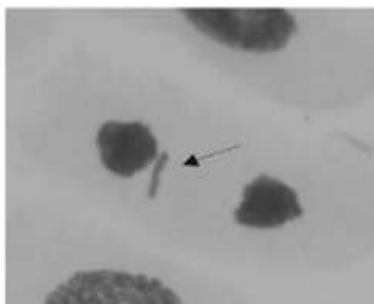

Star shaped metaphase/anaphase / telophase

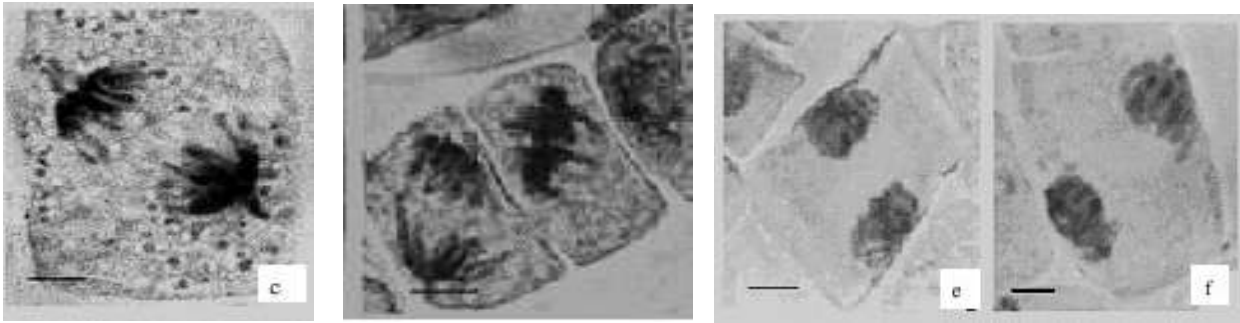

Lagging chromosomes (Laggards)

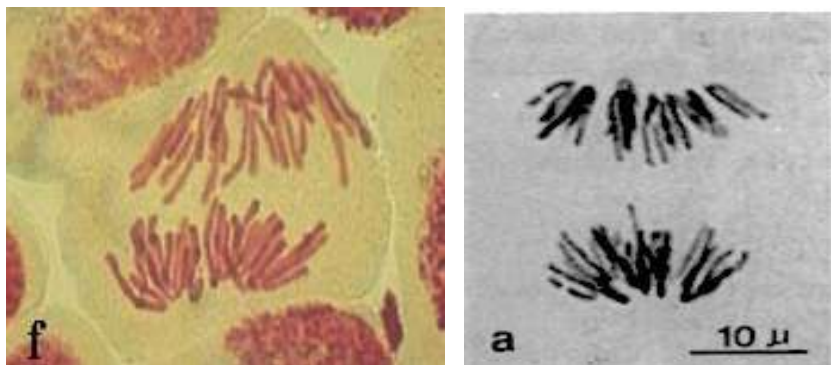

Chromosomal loss

Diagonal metaphase, anaphase and telophase

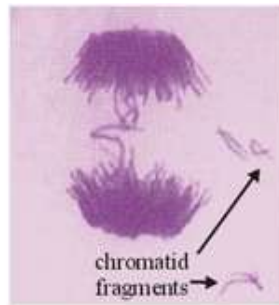

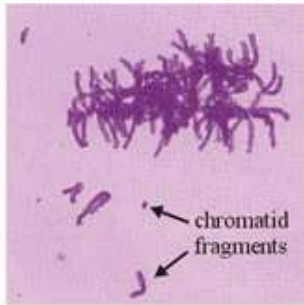

Multipolarity of anaphase

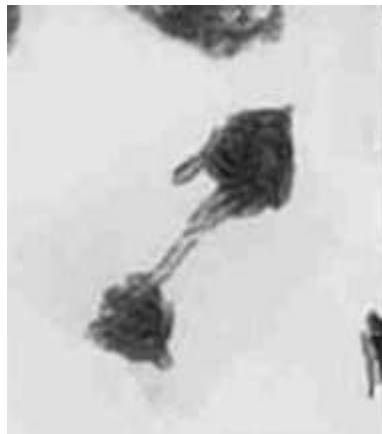

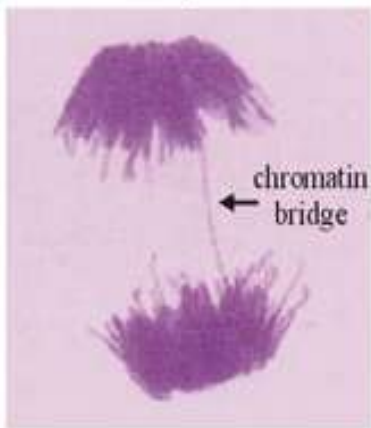

Stickiness of chromosomes

Chromosome breakages/fragmentation

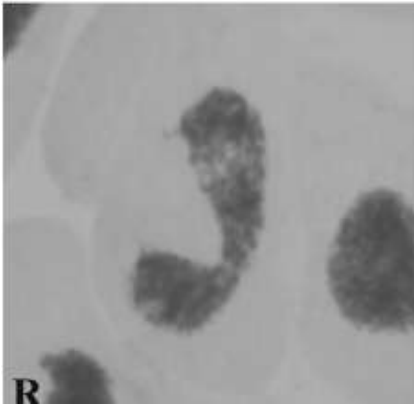

Chromatin/chromosome bridges

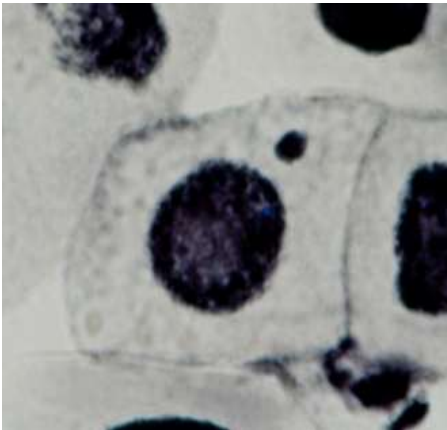

Ring chromosome(s)

Nuclear budding

Micronuclei

Multinucleated cell
