

“ Dell EMC – Egypt COE would like you to take a short programming challenge so we can get a better sense of your programming skills.

Please use the following link to access your test. After clicking the link you will be able to practice with a demo or start the test.

After submitting all your solutions you will be presented with your score for each task, so that you can find out how you performed.

The score is based on automatic assessment. Please keep in mind that we may also take other aspects of your solutions into account “.
