

AMERICAN SOCIETY FOR REPRODUCTIVE MEDICINE
Developed in cooperation with the
Middle East Fertility Society

Pre-Congress Course

Salt Lake City, Utah
October 16, 2016

**PC19: Controlled Ovarian Stimulation:
From Basic to Advanced Principles**

Johnny T. Awwad, M.D., Co-chair
Mohamed A. Aboulghar, M.D., Co-chair

Sunday, October 16, 2016

08:15 – 08:30 Course Introduction and Orientation

08:30 – 09:15 Ovulation Induction in Hypothalamic Amenorrhea: Understanding the Basic Physiology
Alan DeCherney, M.D.

09:15 – 10:00 The Use of Oral Agents for Ovulation Induction in Polycystic Ovary Syndrome: The Role of the PCOS Phenotype
Johnny Awwad, M.D.

10:00 – 10:30 Break

10:30 – 11:15 GnRH Agonists for Pituitary Suppression during Ovarian Stimulation for In Vitro Fertilization/Intracytoplasmic Sperm Injection: Clinical Applications
Robert Rebar, M.D.

11:15 – 12:00 GnRH Antagonists for Pituitary Suppression during Ovarian Stimulation for In Vitro Fertilization/Intracytoplasmic Sperm Injection: Advantages and Limitations.
Mohammad Aboulghar, M.D.

Sunday, October 16, 2016 (continued)

12:00 – 13:00 Lunch

13:00 – 13:45 Designing Ovarian Stimulation Protocols: The Role of Biomarkers
Johnny Awwad, M.D.

13:45 – 14:20 Ovarian Stimulation Protocols for Poor Responders: Myths or Reality
Robert Rebar, M.D.

14:20 – 15:00 Ovarian Stimulation Protocols for Polycystic Ovary Syndrome: Prioritizing Safety
Alan DeCherney, M.D.

15:00 – 15:30 Break

15:30 – 16:15 Luteal Supplementation Following Ovarian Stimulation: The Impact of Follicular Events on Luteal Endometrial Receptivity
Johnny Awwad, M.D.

16:15 – 17:00 Can We Predict and Prevent Ovarian Hyperstimulation Syndrome? Efficacy of Current Strategies
Mohammad Aboulghar, M.D.
