

Hello!

This presentation
presented by :

Noran , Mariam , Manar ,
yara

Our title

“Ethics and volunteer work.
Responsibilities of
Engineers and companies
towards society - helping
people to know about
technology .”

Volunteerism

Why do people volunteer?

→ Acquire new skills.

→ Sense of pride.

→ Volunteer work and progress of people.

→ The solidarity between members of society.

So, why don't some
people volunteer ?!

Success factors for volunteering

- ✓ Objective clarity.
- ✓ Continuity.
- ✓ Availability of sufficient number of Trained volunteers.

Why do we have social responsibilities ?

What does “having” social responsibilities mean ?

- ✓ It means a commitment from the engineering profession to place the public safety and interest ahead of all other consideration and obligations.
- ✓ It means that engineers take into account the consequences of their conduct for the well-being of others as well as for the impact of their work on society and the citizenry.

I-Human safety / health / welfare

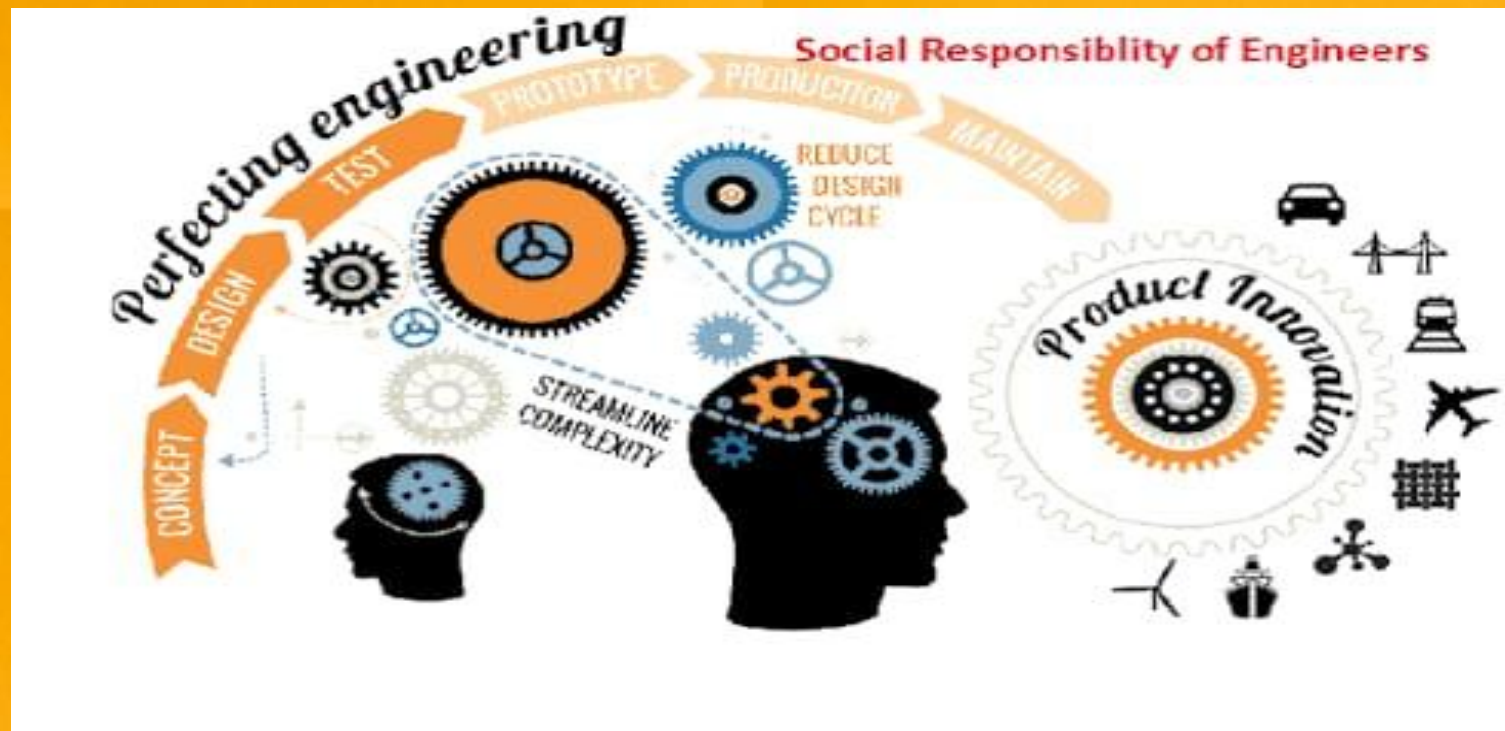

2-Environment and sustainability

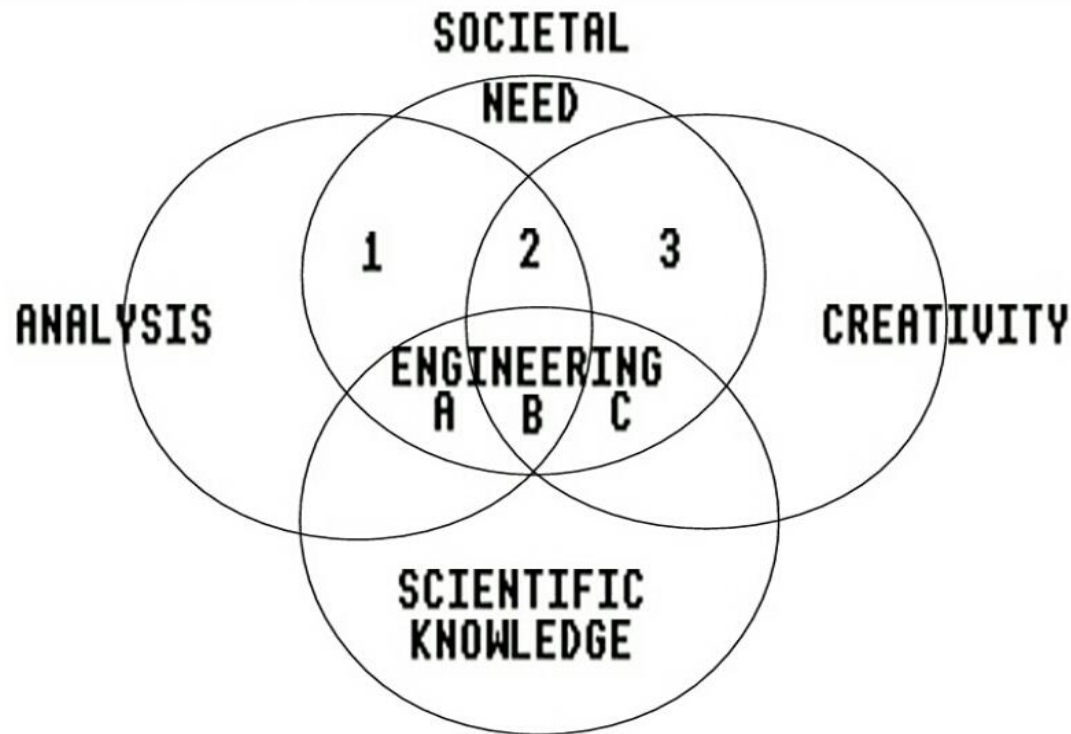

3-Making sure designs will perform as expected and avoiding unintended large catastrophes

4-Find solutions for social problems and improvements to the status

5-Directing scientific knowledge to social needs

6-Blowing the whistle or illegality or
wrong-doing

Taxes

CSR ?!!
..

Corporate Social Responsibility

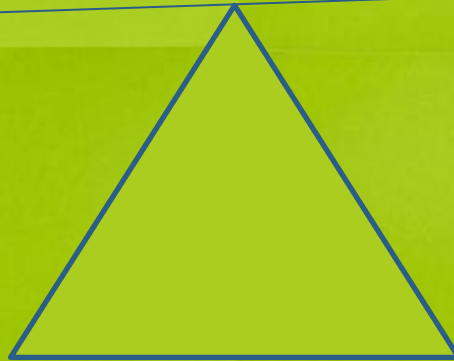

The Social Responsibility of
Business is to Increase its Profits

Milton Friedman
