Membership of Medical Societies and Committees:

- Egyptian Society of Dermatology & venereology; 2009-to date

Supervision of theses: (Most recent)

- Assessment of Tissue (CD8, CD45RO, and FOXP3) in Non Segmental Vitiligo as possible markers of disease activity.
- Dermoscopic and immunohistochemical changes in acquired melanocytic nevi following phototherapy
- Subcision Vs 100%TCA CROSS Technique in the Treatment of Rolling Acne Scars.
- Study of the Association of Tumor Necrosis Factor Promoter Gene Polymorphism (TNF-308) and Susceptibility to Vitiligo.
- Treatment of hypertrophic scars and keloids by fractional carbon dioxide laser: A clinical and immunohistochemical Study.
- Fractional carbon dioxide laser resurfacing in the treatment of solar lentigines.
- A Comparative Study on the Efficacy of UVA1 versus Narrow band UVB Phototherapy in the Treatment of Vitiligo.
- Cutaneous manifestations of haematological malignancies.
- Problematic Dermatological Conditions
- Assessment of Cardiovascular Risk in Psoriasis Patients.
- Prognostic value of ultrasound biomicroscopy in Alopecia areata.

Others:

- Member of Master & Diploma Exam in Dermatology Committee, Dermatology Department, Cairo University (May 2008-May 2012)
- Co-moderator of Journal Club meetings in Dermatology Department, Cairo University (2012 to date).
- Academic instructor for post graduate students in Dermatology Department, Cairo University (2005 to date).
