**Specialist- Radiologist (clinical Radilogy Dept.)**

Reporting and revising reports of plain X-rays, CT, MRI for daily work. Assuring CME through radiology lectures and case presentations to junior staff. Performing US guided core biopsies and stereotaxic biopsy for breast masses. Sharing in administrative work in the radiology Dept. to assure fluent work flow.

**Al Jahra Hospital, Jahra, Kuwait, Arabic Gulf. Oct 2009- April 2013**  
**Senior registrar- Radiologist (clinical Radilogy Dept.)**

- Member of pediatric radiology committy for radiation protection and quality control in Kuwait. Member in charge in Jahra Hospital.
- Member of radiation dose reduction committee for patients and staff.
- Supervision and reporting of X-rays, CT and MRI, Mammograms and ultrasound in general radiology.

**Kasr El Aini Hospital, Cairo University, Cairo, Egypt July2007– to date**  
**Lecturer (Radiology department)**

- Supervision and Reporting of plain X rays ,CT and MRI exams of the central nervous system including brain, spine, petrous, skull base, etc....

**Kasr El Aini Hospital, Cairo University, Cairo, Egypt Nov 2006- July2007**

***Assistant Lecturer (Radiology Dept)***

- Supervision and Reporting of plain X rays ,CT and MRI exams of the central nervous system including brain, spine, petrous, skull base, etc....

**Al Ahsa Hospital, Hofuf, KSA**

**Nov 2002 – Nov 2006**

***Radiologist Specialist***

- Head of radiology Dept. for 6 months.
- Supervision and reporting of X-Rays, ultrasound, fluoroscopy, mammography, and CT for 3 yrs

**Kasr El Aini Hospital, Cairo University, Cairo, Egypt**

**Nov 2006- Nov 2002**

***Assistant Lecturer (Radiology Dept)***

- Supervision and reporting of X-Rays, ultrasound, fluroscopy, mammography, CT and MRI.
- 4 months rotations in the following departments: Uroradiology, gastroenteric Radiology, Paediatric radiology and women's imaging, CT SCAN, MRI, Angiography, and Radiotherapy
- Sharing in weekly conferences, grand rounds attending and presenting lectures in different topics.
- Sharing in the initial implementation and construction of Kasr El Aini Digital library-Radiology Dept. CME Section

**New Kasr El Aini (French hospital), Cairo, Egypt**

**June99-Sept2002**

***MRI specialist***

- Supervising and reporting all types of MRI studies under supervision of experienced Cairo university professors.

**Kasr El Aini Hospital, Cairo University, Egypt**

**Mar 1996- Mar1999**

***Resident of radiology***

- Full time practice in all radiological subspecialties including X-rays, IVP, Fluoroscopy, CT, MRI, Angio, Ultrasound, mammography in the following departments:
  - Gastroenterology
  - Urology and orthopedic radiology
  - Vascular and Interventional radiology
  - CT Dept.
  - MRI Dept.
  - Ultrasound unit.
  - Pediatrics Dept.
  - Women's imaging dept.

**Kasr El Aini Hospital, Cairo University, Egypt**

**Mar 1995- Mar1996**

***House Officer***

- Attending 2 months in each of the following departments:
  - General Medicine.
  - General Surgery.
  - Pediatric hospital.
  - Anesthesia.

- OG/Gyn dept.
- Radiology dept.
- Emergency dept

**Alfa Scan Private Radiology Centre**

**Aug99- Sept 02**

***Radiologist Specialist***

- Performing, Supervising and Reporting different Radiological exams including Plain X rays, Fluoroscopy, HSG, mammography, breast Ultrasound, CT, MRI, and Angiography.

**Professional qualifications**

- Special experience in women's imaging including mammography, breast ultrasound and Doppler, ob/gyn ultrasound ( level III) and interventional ultrasound guided procedures (e.g.: sonar guided core biopsy from a breast mass).
- Special experience in high quality film/screen mammography QI and QC program accredited by the ACR.
- Long practice with all Fluoroscopy techniques including digital fluoroscopy; Single and double contrast Barium studies, Sialography, cystourethrography, Myelography, hysterosalpingeography, ductography and others.
- High performance reporting of all types of CT scan and MRI.
- Ability to perform different angiographic studies in a well equipped setting.
- Quick and reliable performance of all ultrasound exams including abdominal, pelvic, thyroid, breast, Pancreas, adrenals, ovaries, and small parts.
- Knowledge of ACR standards and qualifications for different imaging studies in a large radiology department including X-rays, Ultrasound, CT scan, MRI, FF digital mammography and digital breast tomosynthesis.
- Ability to give impressive CME lectures to colleagues and hospital staff and to enroll in a CME program.
- Valid BCLS (Basic Cardiac life support) and ACLS (Advanced Cardiac life support).

**Additional Courses**

- ACLS provider course in July 2005
- BCLS provider course in January 2003
- Passed the TOEFL and Michigan English tests.
- Passed the DELF B1 French language test.
