

# Sameh Abdel Latif Abdel Salam

MBBch, M.Sc.

Al Haram street, Cairo

Egypt

Phone, +201145885530

E mail, [samehsam1@yahoo.com](mailto:samehsam1@yahoo.com), [sameh.abdellatif@kasralainy.edu.eg](mailto:sameh.abdellatif@kasralainy.edu.eg).

## Objective:

Radiologist with cardiac imaging specialty (perinatal congenital Echocardiography, Computed tomography and Cardiac Magnetic resonance imaging).

## Personal Data:

- Citizenship: Egyptian.
- Date of Birth: October 3th, 1986.
- Marital status: Married.

## Qualifications:

-**Master:** diagnostic and interventional radiology Department, kasr Alainy hospitals, Cairo University, Egypt);

Done thesis about **role of ultrasound in morphologic and functional assessment of fetal Heart in diabetic mothers**; focusing on role of Tie Index in functional assessment of fetal heart in cases of maternal diabetes induced fetal cardiomyopathy and structural heart disease, sponsored by Cairo University, Egypt).

- **2010-2011:** basic science courses in internal Medicine and surgery, attending rounds at kasr Alainy hospitals and operating theatres.

- **M.B.B.CH**, Cairo University, Egypt, May 2010.

- **High school**, Ahmed Maher School, Mataria Dakahlia, Egypt, 2003.

## Fellowships, Residencies, Internships, and Residency Assessment:

- **Assistant lecturer:** of diagnostic and interventional radiology, Department of radiology, Kasr Alainy Hospitals, Cairo University, Egypt, October 2015 till now.
- **Fellow of cardiac imaging:** Diagnostic radiology department, **Magdi Yacoub Heart Foundation**, 1<sup>st</sup> November 2015 till the 1<sup>st</sup> May 2016.
- **Residency:** Diagnostic and interventional radiology residency, Department of radiology, Kasr Alainy Hospitals, Cairo university, Egypt, November 2011- November 2014.
- **Internship:** Cairo University Hospitals,
  - Internal medicine, September 2010- October. 2010.
  - Pediatrics, November 2010- December. 2010.
  - Gynecology and Obstetrics, January. 2011- February. 2011.
  - Andrology and ICU, March. 2011- April. 2011.
  - Emergency and Anesthesia. May. 2011- June. 2011.
  - General Surgery. July. 2011- August. 2011.

## Affiliation:

Diagnostic and interventional radiology department, Kasr Alainy Hospitals, Cairo University, Egypt.

## Research:

- Role of ultrasound in morphologic and functional assessment of fetal heart in fetuses of diabetic mothers, Soha Talaat M.D., Mohamed Ali Abdel Kader, M.D. Cairo University 2014.
- T1 mapping as a new technique in detection of fractional flow reserve and developing ischemia, (Poster presentation, February 2017, Society of cardiac magnetic resonance imaging).

## Case reports:

1. Combined double chambered right ventricle (DCRV) and discrete subaortic stenosis (DSAS). [www.TheFetus.net](http://www.TheFetus.net).
2. Corrected transposition of the great arteries with mild subpulmonary stenosis. [www.TheFetus.net](http://www.TheFetus.net).
3. Left isomerism with normal heart and gut malrotation. [www.TheFetus.net](http://www.TheFetus.net).
4. Partial anomalous pulmonary venous connection of both superior pulmonary veins into vertical vein draining into right superior vena cava. [www.TheFetus.net](http://www.TheFetus.net).
5. Partial atrioventricular septal defect and type B of aortic arch interruption. [www.TheFetus.net](http://www.TheFetus.net).
6. Ventriculo-coronary arterial communication in pulmonary atresia with intact ventricular septum. [www.TheFetus.net](http://www.TheFetus.net).
7. Persistent left SVC draining into dilated coronary sinus with absent right SVC. [www.TheFetus.net](http://www.TheFetus.net).
8. STIC recorded hemodynamics in D transposition of the great arteries with VSD. [www.TheFetus.net](http://www.TheFetus.net).
9. Supraventricular tachycardia – pre-terminal recording of hemodynamics by STIC. [www.TheFetus.net](http://www.TheFetus.net).
10. Tetralogy of Fallot with absent pulmonary valve syndrome. [www.TheFetus.net](http://www.TheFetus.net).
11. Tetralogy of Fallot with clefting in anterior leaflet of mitral valve. [www.TheFetus.net](http://www.TheFetus.net).
12. Total anomalous pulmonary venous return, supracardiac type. [www.TheFetus.net](http://www.TheFetus.net).
13. Tubular hypoplasia of the aortic arch with critical coarctation. [www.TheFetus.net](http://www.TheFetus.net).
14. Cor triatriatum sinister, incomplete non-obstructive. [www.TheFetus.net](http://www.TheFetus.net).
15. Pulmonary atresia with intact ventricular septum. [www.TheFetus.net](http://www.TheFetus.net).

16. Pulmonary valve stenosis. [www.TheFetus.net](http://www.TheFetus.net).
17. Restrictive dermopathy. [www.TheFetus.net](http://www.TheFetus.net).
18. Abnormal course of the left brachiocephalic vein through the thymus. [www.TheFetus.net](http://www.TheFetus.net).
19. Agenesis of the ductus venosus (type 3) with venous ectasia. [www.TheFetus.net](http://www.TheFetus.net).
20. Two cases of Aneurysm of the ductus arteriosus. [www.TheFetus.net](http://www.TheFetus.net).
21. Atrioventricular septal defect with bilateral pleural effusion. [www.TheFetus.net](http://www.TheFetus.net).
22. Blocked atrial trigeminy resulting in fetal bradyarrhythmias. [www.TheFetus.net](http://www.TheFetus.net).
23. Multiple blocked premature atrial contractions resulting in fetal bradycardia. [www.TheFetus.net](http://www.TheFetus.net).
24. Premature atrial contractions with transient atrial quadrigeminy. [www.TheFetus.net](http://www.TheFetus.net).
25. Coarctation of the aorta. [www.TheFetus.net](http://www.TheFetus.net).
26. Conoventricular septal defect. [www.TheFetus.net](http://www.TheFetus.net).
27. Fetal Goiter. [www.TheFetus.net](http://www.TheFetus.net).
28. Harlequin ichthyosis. [www.TheFetus.net](http://www.TheFetus.net).
29. Left isomerism. [www.TheFetus.net](http://www.TheFetus.net).
30. Lissencephaly with cerebellar hypoplasia in association with multicystic encephalomalacia. [www.TheFetus.net](http://www.TheFetus.net).
31. Vesicoureteral reflux - Grade V. [www.TheFetus.net](http://www.TheFetus.net).
32. Left circumflex coronary artery to coronary sinus fistula diagnosed in infancy. Journal of cardiology cases.
33. Germinal matrix hemorrhage, Grade I. [www.Sonoworld.com](http://www.Sonoworld.com).
34. The role of 3-dimensional ultrasound for the diagnosis of LPSVC and a review of literature. Journal of Gynecology and obstetrics.

## **Publication under preparation:**

- Total anomalous coronary venous drainage High risk for unexpected intra operative sudden cardiac death.
- Aortic coarctation with hypoplastic arch.
- Transverse septum of the arterial duct in case of hypoplastic left heart syndrome.
- Shepherd Hook anomaly of ductus arteriosus. Prenatal Echocardiographic diagnosis.

## **Presentations:**

- Prenatal echocardiography: combined double chambered right ventricle and discrete sub aortic stenosis, Annual conference of radiology department, Cairo University, 26 May 2016.
- Fetal echocardiography, does it matter? Magdi Yacoub Heart foundation, 30 March, 2016.
- Role of ultrasound in morphologic and functional assessment of fetal heart in diabetic mothers, Master thesis, presentation Cairo University, 20 April, 2014.
- Normal sonographic fetal cardiac basic and advanced exam. Presentation at Diagnostic and Interventional Radiology Department, Cairo University. February 2014.
- Isolated Type B interrupted aortic arch in cardiac magnetic resonance. Presentation at Diagnostic and Interventional Radiology, June 2013.
